USER GUIDE

MAP VIEW

When you log in to your LeakSecure PRO Dashboard, the first and main screen you will see is your map view. The map view will display all your corresponding LeakSecure devices installed.

You can click on any of the color-coded dots to quickly access the device you wish to view.

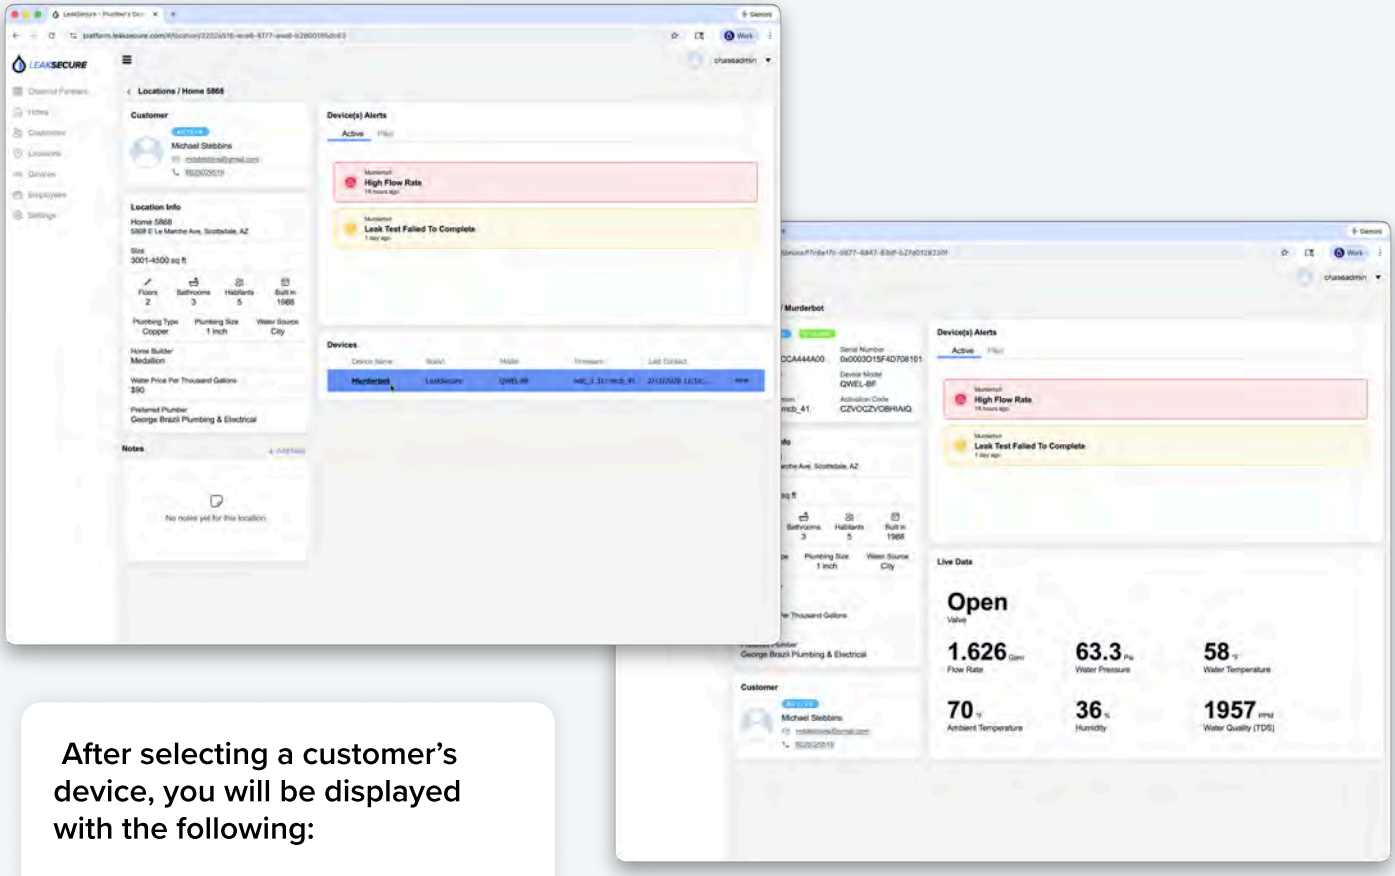

Alternatively, you can click on the location from the panel view displayed on the left-hand side of the map screen.

- **Red dots = Critical Alert is active**
- **Yellow dots = Warning Alert is active**
- **Green dots = No Alert is active**

SETTINGS AND CONFIGURATIONS

To change theme configurations, click on your channel partner and then select “Theme Configuration”. Here you can upload your logos to light and dark mode versions of the dashboard.

To view settings, click on Settings from the left-hand side panel. You can switch between light and dark mode views.

Note these changes are purely cosmetic and have no effect on the performance of your dashboard or app.
