

SALESFORCE SECURITY & RISK ASSESSMENT

Your Salesforce org keeps your most crucial customer data; therefore, it is a target of insider and cyber threats. Let Cloudsystem help secure Salesforce with our Security Assessment and Risk Assessment to bring to light any risks and concerns.

WHY CLOUDSYSTEM

Cloudsystem's Salesforce Security and Risk Assessment offers decades of expertise in security and governance, risk, and compliance (GRC), aligned with industry best practice recommendations tailored to meet your goals.

BENEFITS

Actionable guidance for reducing potential Data Breaches
guidelines for enhanced Salesforce conformance

Best Practice recommendations on your org's overall security health.

Insight into possible misconfigurations as well as third party app risks for Salesforce org optimization and resolution of assessment discoveries.

OBJECTIVES

Align with Organizational Goals

During the Assessment, we will discuss your Organizational Goals so that we can include them in our recommendations.

Salesforce Org Security

Assessment Cloudsystem will conduct a High-Level Security Assessment on your Org to help you protect your data

Salesforce Org Risk Assessment

Cloudsystem will conduct interviews to determine whether processes and practices are in place to manage Salesforce to mitigate risks effectively.
