

User Manual for the ShadowMate and ShadowMate XL for the Manuowell Assassin Bait Boat

Model:

ShadowMate and ShadowMate XL Handle for Manuowell Assassin Bait Boat

Manufacturer:

Exesor 3D Design

Scope of Delivery:

- 1 x ShadowMate or ShadowMate XL
- 2 x Stainless Steel Screws M5
- 2 x Handle Mounting Elements (Front & Rear)

Features:

The ShadowMate and ShadowMate XL have been specially designed to improve the handling of bait boats. Thanks to their larger and lighter construction compared to the original handle, they offer:

- Easy placement and retrieval of the bait boat from the water
- Usability in any position when used with BAT upgrades (ShadowMate XL only)
- Improved handling with fluctuating water levels due to the wider opening

The handle is made of high-quality XPETG MATT, offering excellent mechanical and thermal properties. The ShadowMate XL is an essential component of the BAT upgrade and necessary for its proper function.

Preparation and Installation:

1. Removing the Original Handle:

1. Turn off the bait boat and disconnect it from the power source.
2. Carefully unscrew the original handle and keep the screws safe — they will be needed for installing the ShadowMate or ShadowMate XL.

2. Installing the ShadowMate or ShadowMate XL:

1. Position the new handle in place of the original.
2. Secure it using the existing screws. Make sure the screws are tightened evenly.
3. Check the functionality of the newly installed handle.

Operation:

1. Use with BAT Upgrade:

- The ShadowMate XL allows safe placement and retrieval of the bait boat even when the launcher is loaded.
- The handle can remain in a vertical position during launching, greatly simplifying handling.

2. General Use:

- Always securely hold the bait boat by the handle when placing it in or removing it from the water.

Maintenance and Care:

- Clean the handle after each use with a damp cloth to remove dirt and debris.
- Regularly check that the screws are properly tightened.
- Avoid contact with aggressive chemicals or solvents to prevent material damage.

Safety Instructions:

1. Ensure the handle is securely mounted before using the bait boat.
2. Use the handle exclusively with compatible Manuowell Assassin bait boats.
3. Do not exceed the maximum load capacity of the bait boat.
4. Store the handle in a cool, dry place to avoid material fatigue.

Technical Specifications:

Component Details

Material	XPETG MATT
Production	FDM 3D Printing
Weight	Lightweight design for easy handling

Disclaimer:

The manufacturer assumes no liability for damage caused by improper use or incorrect installation of the ShadowMate or ShadowMate XL.
