WORK EXPERIENCE

Parallel² — Product Innovation & Consulting – Dublin, Ireland

Product Design Partner

[01/02/2026 – Current]

Member of the Parallel² Freelance Partner Network, collaborating on product design engagements as opportunities align.

YLD – London, United Kingdom

UX & Product Design Consultant (Healthcare Sector)

[17/11/2025 – 30/01/2026]

Worked on a responsive research platform focused on autism, designing user-centered experiences to support complex research workflows.

Partnered with cross-functional teams across the full product lifecycle, ensuring design decisions were grounded in user needs and product strategy.

Led the creation and ongoing evolution of a scalable design system, improving consistency, accessibility, and development efficiency while enabling the platform to scale and adapt over time.

Arista Networks – Dublin, Ireland

Product Designer

[12/05/2025 – 12/10/2025]

Collaborated with cross-functional teams across the full product lifecycle on CloudVision, a large-scale network platform spanning multiple domains, shaping product experiences within the network visibility and telemetry domain.

Contributed to platform-level design decisions and the organisation's AI strategy by identifying opportunities where AI could streamline operational workflows and support faster, more informed decision-making at scale.

Arcanna.ai – New York, United States

Founding Product Designer

[01/01/2022 – 09/05/2025]

Responsible for the end-to-end design of an AI-powered cybersecurity platform, shaping experiences from early ideation through to execution in close collaboration with cross-functional teams.

Translated complex security and technical concepts into clear, usable experiences that support confident decision-making in high-risk environments.

Led the creation and maintenance of a design system, ensuring visual consistency and efficient delivery while remaining flexible to evolving product needs.

Arcanna.ai – New York, United States

Software Developer & SCRUM Master

[01/01/2018 – 01/12/2021]

Responsible for delivering functionalities in diverse projects, including front-end, back-end development, database optimizations, and Linux administration.

I have worked with a variety of technologies and tools, such as HTML5, CSS3, JavaScript, jQuery, Typescript, Less, Git, WordPress, Webflow, Python, Ruby, Perl, Docker, Zookeeper, Kafka, Nginx, Logstash, Kibana, Elasticsearch.

Responsibilities as a SCRUM master include:

1. Coaching the team to be self-managed and cross-functional.
2. Delivering high-value in increments at the end of every Sprint.
3. Removing impediments to the team's progress.
4. Ensuring there is a positive and productive working environment.
5. Resilience to the changes that appear in our vast and complex environment.
6. Consultation and strategic planning for the product's next steps with the Product Owner

 **Faxtorial Tech** – Timisoara, Romania

Software Developer

[01/10/2016 – 31/12/2017]

Responsible for diverse projects in both back-end and front-end development. I worked with a variety of technologies

such as HTML5, CSS3, PHP, jQuery, JavaScript, Python, CodeIgniter, Bootstrap, and UIKit.

I have worked with both relational and non-relational databases, including PDO, SQL, and Elasticsearch.

I have also worked on projects requiring automation via shell scripting, and Linux administration in various Linux distributions such as CentOS, Debian, and FreeBSD.

 **West University of Timisoara** – Timisoara, Romania

Network Administrator

[11/09/2014 – 24/06/2016]

As a network administrator, my responsibilities were to maintain and extend the University's network, which consisted

of 11 faculties and all of its dorms.

Equipment maintenance and configurations, consisting of layer 2 and layer 3 switches, routers, and firewalls.

I have worked with a variety of equipment, operating systems, firewalls, and configuration management tools such as: Cisco, HP, Ubiquity, Windows server, Ubuntu, Free BSD, CentOS, PFSense, and Puppet.

 **iSoftBet** – Timisoara, Romania

Web Developer

[01/07/2016 – 01/10/2016]

Worked on developing an online casino using PHP, CSS, Bootstrap framework, JavaScript, jQuery, PHP, and PDO.

The casino consisted of log-in, user creation, user profile update,

PayPal integration API, and a blackjack game built from zero.
