

Konstantinos Dasoulas

Product Designer · AI & Complex B2B Products

kdasoulas@gmail.com | (+40) 752 197 189 | konstantinosdasoulas.com | linkedin.com/in/kdasoulas

Product Designer with software-engineering roots, turning technical, high-stakes domains into clear, trustworthy products. I own the full product lifecycle, build scalable **design systems**, and partner with cross-functional teams across startups and enterprise — designing for real technical constraints and turning complex data into intuitive, confident experiences.

EXPERIENCE

Product Design Partner Feb 2026 – Present
Parallel2 — Product Innovation & Consulting · Dublin, IE

- Deliver product design on selected client engagements via the Parallel2 freelance partner network.

UX & Product Design Consultant — Healthcare Nov 2025 – Jan 2026
YLD · London, UK

- Designed a responsive **autism-research platform**, shaping user-centered experiences for complex research workflows.
- Built a **scalable design system** that improved consistency, accessibility, and development efficiency at scale.

Product Designer May 2025 – Oct 2025
Arista Networks · Dublin, IE

- Shaped **network visibility & telemetry** experiences in CloudVision, a large-scale, multi-domain enterprise platform.
- Contributed to platform-level design decisions and the organisation's **AI strategy** for streamlining operational workflows.

Founding Product Designer Jan 2022 – May 2025
Arcanna.ai · New York, US

- Owned **end-to-end design** of an AI-powered cybersecurity platform for SOCs, from ideation to execution as founding designer.
- Turned noisy security data into clear experiences via flexible data tables and an AI assistant — reducing tool-switching and speeding threat response.
- Built and maintained the **design system**; design supported Arcanna.ai **raising \$5.45M** in funding.

EARLIER EXPERIENCE

Software Developer & Scrum Master · Arcanna.ai Jan 2018 – Dec 2021
