

YOU CAN NOW RESET YOUR DUPR RATING

Think your DUPR doesn't reflect your current level?
Reset it **risk-free**.

RESET PERIOD
MAR 16 - MAY 17, 2026

DUPR is giving players the option to reset their rating using recent match results, completely risk-free. If you believe your level has evolved, here's a structured, fair way to prove it.

How It Works?

Register before or during the reset period

FOR DOUBLES

Play at least 8 matches with 2 different partners

FOR SINGLES

Play at least 8 matches against 2 different opponents

Resets are optional and risk-free. Your rating can only stay the same or improve.

** There is no maximum number of matches or partners; if players don't meet the minimum number of matches and/or partners, their rating reverts back to its original state.*

***All matches other than self-reported matches will count*
