DUPR[®] NEW FEATURES

DUPR is introducing three new features to your profile: **Subscores**, **Career High**, and **DUPR Impact**, along with an **enhanced profile** experience.

Subscores

Introduce **Mixed Doubles Rating** and **Age-Based Doubles Ratings (50+ and 65+)**, giving you a more detailed view of performance across formats and age groups.

Career High

Highlights your **highest DUPR achieved** after your **first 8 matches**, providing context beyond your current rating.

DUPR Impact

Allows you to explore how **different scorelines** affect your rating using the **Forecast tab** in the DUPR app.

These updates bring more insights into your DUPR Rating, making it easier to understand how performance translates into rating movement, giving us more flexibility in event structuring, reducing rating-related stress, and providing better data for draws.
