

New Features: Subscores, Career High & Impact

Frequently Asked Questions

Will my DUPR rating change?

No. Your DUPR remains your official rating. Subscores are additional metrics, not replacements.

How do I qualify for a Career High?

Play at least 8 recorded matches in the DUPR system. Your highest rating will be displayed as your Career High.

Can I use my Mixed Rating for all Mixed Doubles events?

It depends on the organizer. Some may use it for mixed doubles events, while others may continue with the original DUPR. Check the event details.

Will my club or local league use these new scores?

That's up to them. DUPR provides the data, but organizers decide how to use it. We recommend reaching out to your league or club director for more information.
