Enter the Circle

Circular Economy for Young Entrepreneurs

enter the circle

August 2024

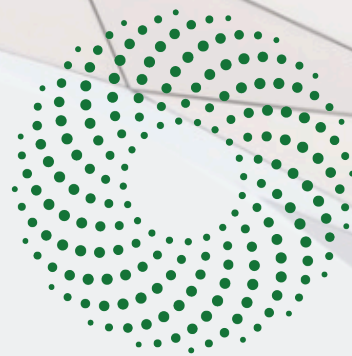

WHAT HAVE WE ACHIEVED SO FAR?

We developed the Train-the-Trainer edition of the Circular Economy Mastery Course! This course is crafted to empower trainers with advanced knowledge and strategies for fostering circular economy leadership. explore key modules, from principles and business models to resource efficiency, sustainable practices, and governance. Equip yourself to inspire change and drive innovation within organizations and communities. Together, let's champion sustainability!

We conducted pilot training sessions in Cyprus, Denmark, and Greece, engaging over 60 participants. Despite the extreme heat in Cyprus limiting physical attendance, the blended training sessions successfully delivered 20 hours of comprehensive learning. This pilot phase was instrumental in refining our materials and approach.

Final TPM “Enter the Circle” Project in Greece

The "Enter the Circle" project successfully advanced circular entrepreneurship through international collaboration. Key outcomes include the Competence Framework for Circular Entrepreneurship, equipping young entrepreneurs with essential skills. A comprehensive MOOC was developed, covering circular economy principles and resource efficiency. A certification scheme was introduced to formally recognize participants' competencies. Robust outreach efforts ensured widespread engagement. The project's resources will continue to support future sustainability efforts.
