BESPOKE PRODUCT DEVELOPMENT

DEVELOPMENT

Africa!gnite is an excellent partner to help develop **bespoke product ranges**, whether it be for interior design elements, fashion, jewellery, corporate gifts or special campaigns.

Our trusted community art and craft partners are always willing to learn new skills and experiment with new ideas and techniques. Through their creative input, Africa!gnite has created many amazing new ranges **which are not featured in this catalogue.**

ABOUT AFRICA!IGNITE & WOWCRAFT

WOWCRAFT is a sustainable income creation initiative of Africa!ignite, a Durban-based, non-profit rural enterprise development agency that works across rural KwaZulu-Natal, Eastern Cape and increasingly into South Africa.

Our purpose is to create opportunities for people in rural and marginalised communities to reach their full potential so that they can improve their lives and those of their families.

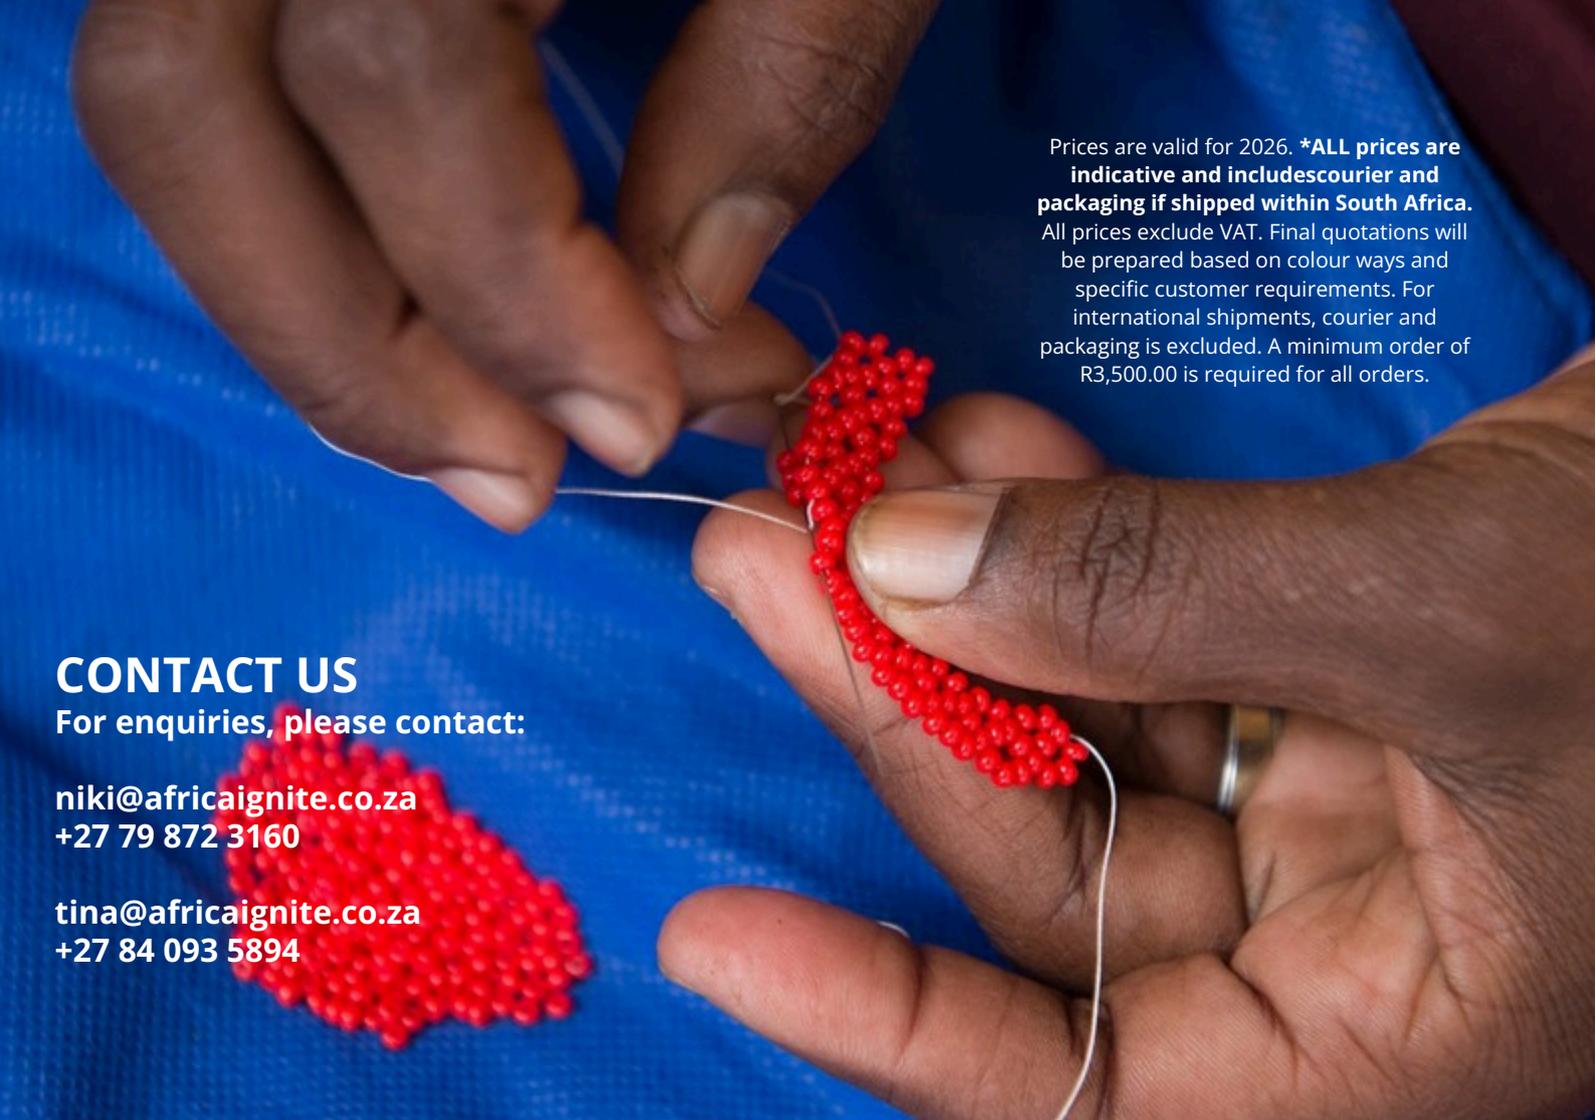

Africa!ignite makes critical contributions to help our rural artists and crafters raise their personal *and* product profiles. Many of our rural enterprises operate informally by choice, but they are nevertheless able to deliver high-end products by partnering with Africa!ignite.

We build ethical partnerships with our art and craft producers by providing design input, improving technical - and business skills, assuring quality and fulfilling orders.

In this way, we create sustainable opportunities for producers to earn a fair income for themselves and their families, from art and craft skills inherited and passed on through generations - usually from their mothers and grandmothers. .

AFRICA!IGNITE upholds the 10 Principles of Fair Trade as prescribed by WFTO in our day-to-day work. For more information please visit www.africainite.co.za
