Are You Feeling a Ripple Effect?

The new 2026 The Ripple Effect: CPG Sustainability and the New OEM Spec Sheet report examines how consumer, retailer, and regulatory sustainability pressures are cascading upstream to reshape OEM requirements. Find out more about how sustainability demands, performance trade-offs, and concerns are causing a ripple effect across packaging and processing.

Tell Us What You're Seeing

Our latest **QS Global Customer Code of Conduct Survey** explores how OEMs and suppliers are responding to the growing complexity of customer Codes of Conduct, ESG requirements, and sustainability standards. Your experience can help uncover where compliance challenges are emerging and shape a clearer picture of what companies are facing today. Best of all, it's designed to be fast and easy to complete.
