Rules:

- The games will be played without time clocks. Teams are required to maintain the flow of play (1 game with warm-up = 2 hours).
- There will be no time outs and no 4th-End Break!
- The first named team plays with the dark coloured rocks, the second named team plays with the light (yellow) rocks.
- Before the first game (marked with *) a coin toss decides which team practices first. From the second game on, the first-named team always plays first, followed by the second-named team.
- There is a pre-game practice of 5 minutes, then 2 LSD will be played, clockwise first, then counterclockwise. After that the teams choose their 5 stones and the spare stone.
The LSDs are measured by the teams with one point measure (stone covers hole = 0 cm). The team with the lower cumulated distance to the pin has the choice of hammer.
- For the DSC the 9 best LSD of a team count, the worst LSD is cancelled.
- If a game is tied after 8 ends, an extra end is played. If the extra end is blanked, a second extra end will be played, until a decision is made.
- After the group stage an overall ranking (!) by wins, as well as the DSC will be made. If two or more teams have the same points, the DSC decides!
- The best 8 teams qualify for the quarter finals, 1 vs 8, 2 vs 7 etc. If teams are tied for the last qualifying spots, there will be one round of tie breaks.
If there's no tie break, the quarterfinals will be played on Tuesday evening, the semifinals and the final will be rescheduled on Wednesday.
- In the playoffs the team with the better record (!) has the choice between hammer or stone color. The team with Hammer will practice first, no LSD will be played.
If two teams with the same record meet, 2 LSD will be played again. The higher ranked team has the choice between stone color and first or second practice.
