Custom sizes, materials and configurations available.
Standard lead times apply.

### ABOUT

The Mosaic cabinet in selenite, bronze and claro walnut is a strikingly opulent example of a few of the most beautiful materials in the natural world that we have been given as furniture makers to work with. The geometric pieces of selenite are carefully outlined with polished bronze inlay hand positioned, setting each individual piece in a frame of its own. The Claro Walnut case is rich and deep in its brown tones, bringing this ethereal piece of furniture back down to earth. This Mosaic Cabinet is configured as a secretary with three drawers, two doors,a fall-front writing surface, and a TV lift.

### FINISHES

Available finishes: All level 1, 2, and 3 finishes
