BRIDGE CONSOLE

DESCRIPTION

An extension of its bedside table counterpart, the Bridge Console boasts the same, streamlined design. Inspired by the two bridges which link the two cities, Newcastle and London together. This beautifully structured side table supports the modern-brutalist design philosophy with its inspiration coming from the two bridges. Consistent with the other pieces in the Bridge range, the smooth surface of the high gloss top is con trasted with the more textural design of the table's linear legs. The Bridge Console also represents the London city scape skyline, detailed along the base.
