CHEOPE | BENCH

PRODUCT PHOTOGRAPHY & SPECIFICATIONS

CARLYLE COLLECTIVE

BY HESSENTIA

DESCRIPTION

The peculiarity of the bench Cheope lies in the eccentric decoration that covers the oval bases, the designer’s artistic expression. A thin metal sheet is molded thus creating a surface with a strong three-dimensionality emphasized by a chromatic finish that enhances its texture. It is available in different chromatic finishes to obtain the best match with the type of saddle leather chosen. It lends itself to being inserted in different types of rooms even if its natural location is in the sleeping area.

SPECIFICATIONS

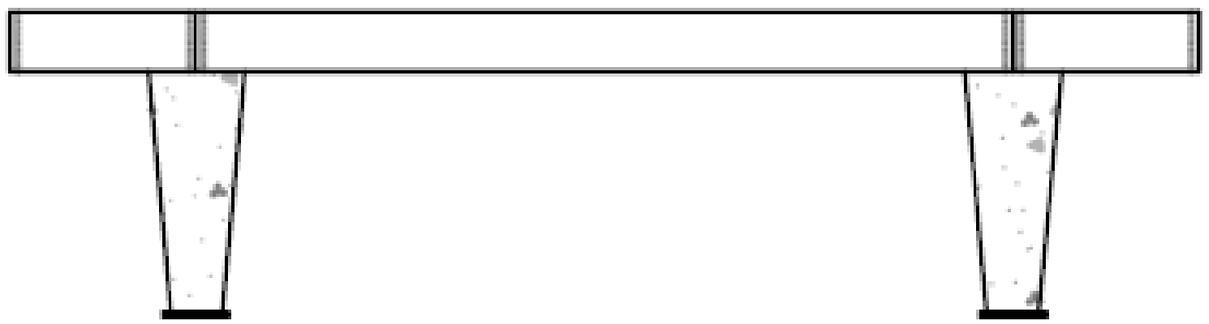

Materials: Saddle leather, Wood, Metal

Design: Claudio Cappellini - 2018

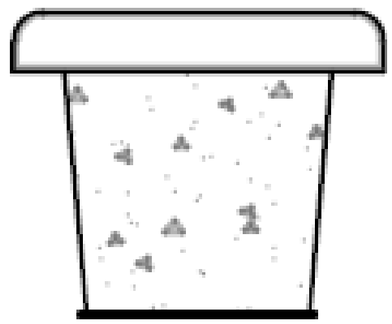

Dimensions:

160 W x 50 D x 41 H cm (CHEOPE.4100)
