CHEOPE | SIDE TABLE

PRODUCT PHOTOGRAPHY & SPECIFICATIONS

CARLYLE COLLECTIVE

BY HESSENTIA

DESCRIPTION

The peculiarity of the round side table Cheope lies in the eccentric decoration that covers the conic base, the designer’s artistic expression. A thin metal sheet is molded thus creating a surface with a strong three-dimensionality emphasized by a chromatic finish that enhances its texture. Available in different chromatic finishes to obtain the best match with the type of marble chosen. It is particularly suitable for a refined and exclusive living area.
