ADONE | DINING TABLE

PRODUCT PHOTOGRAPHY & SPECIFICATIONS

CARLYLE COLLECTIVE

BY HESSENTIA

DESCRIPTION

Sophisticated and refined, the table Adone is an elegant protagonist of the dining area. The precious materials used for its realization are further enhanced thanks to the harmonious sinuous shapes. The top, rounded at the ends, is an important block of marble with a metal profile. In larger sizes, the two-piece division of the top becomes even more interesting thanks to the game of symmetries commonly called ”open book”. Great attention is paid to the base: the metal supports the four elements finely covered in leather and engraved both vertically and horizontally.
