CARLYLE COLLECTIVE

BY MORFOSI

The Amazonas collection represents the debut of Morfosi in the outdoor sphere. Inspired by the luxuriant and exuberant nature of Brazil, the collection pairs marble with woven wicker in a striking interplay of materials. Like rainforest vegetation flowing upward from earth to light, the wicker emerges from the marble, creating fluid and elegant shapes that both frame and support the stone.

All pieces are handmade in Italy. Type of marble and sizes can be customised on request.
