

The Romo coffee tables are conceived as floating islands, defined by generous surfaces and refined material contrasts. Available in three sizes, Romo combines lacquered wood with a marble, stained wood or lacquered insert, creating a collection with a wide range of customisation possibilities. A continuous lacquered structure flows from the base to the top, interrupted only by the material insert that adds depth and character. Structure in machine cut, hand finished MDF, pores sealed and sandblasted before lacquering in any RAL colour, matte or high gloss. The 20mm inserted top is in marble, brush sanded wood veneer or lacquered MDF. Comes assembled. Felt glides.

## SPECIFICATIONS

**ROMO50**
W 19.7" / 50 cm - D 19.7" / 50 cm - H 16.9" / 43 cm

**ROMO90**
