BY SLASH OBJECTS

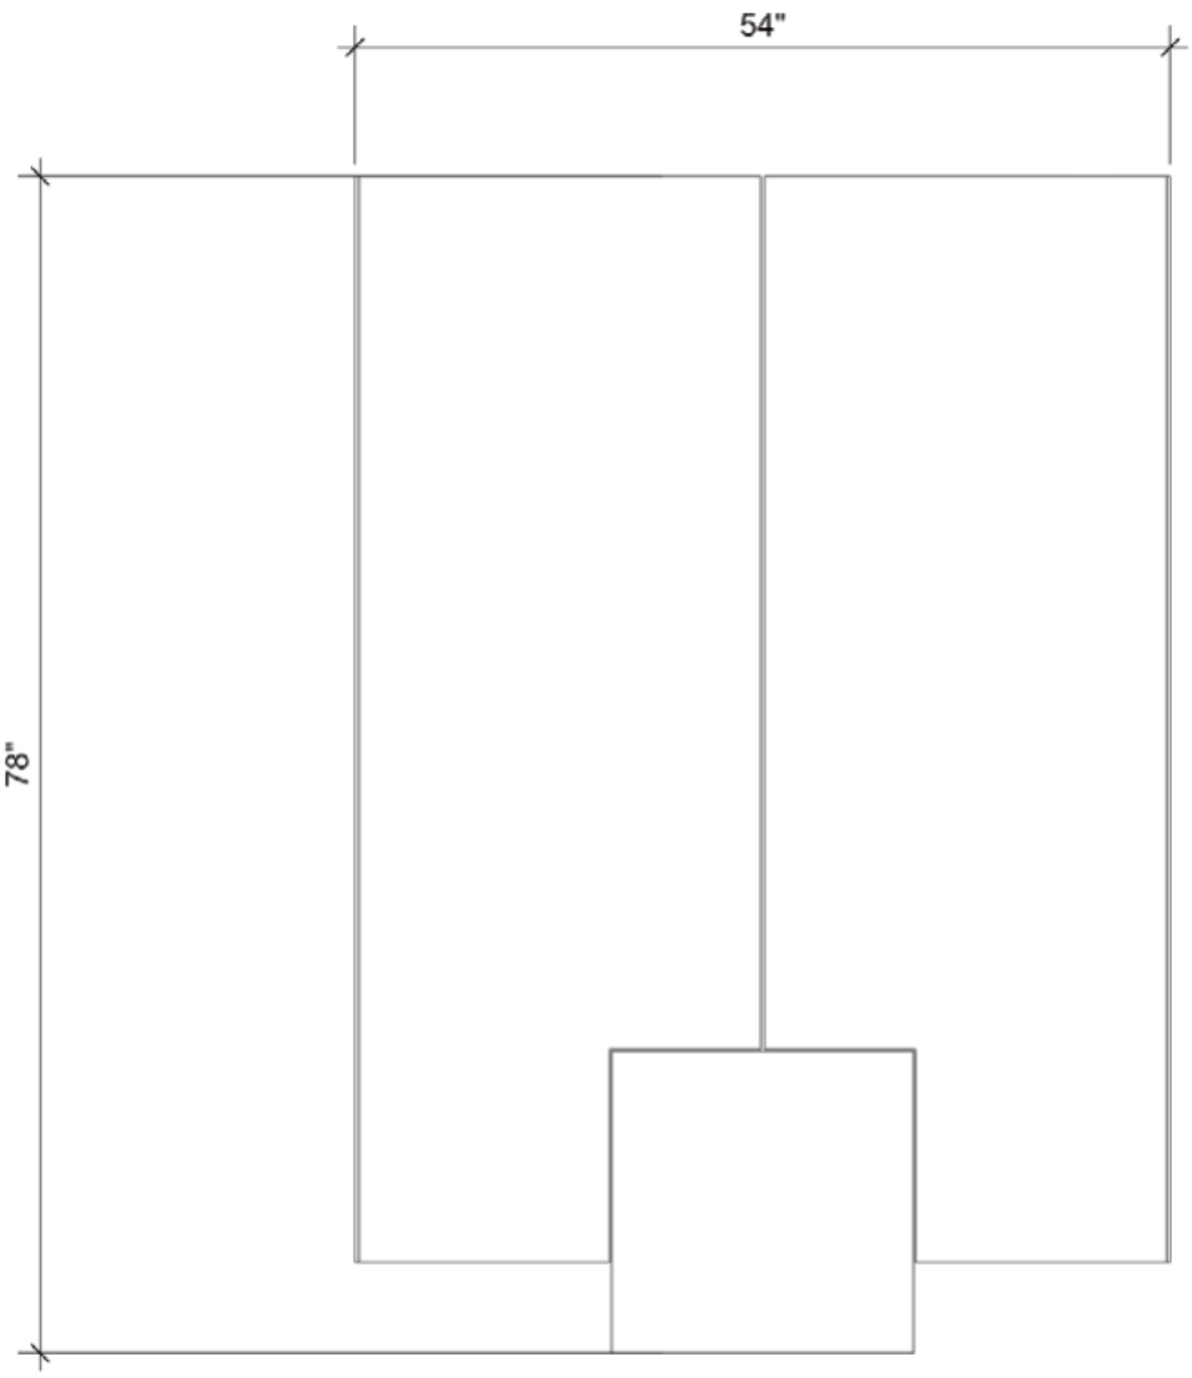

The X Armoire is a sculptural bar cabinet defined by reflection, concealment, and material contrast. Clad in mirror-polished stainless steel with a brushed brass base and hardware, the piece transforms depending on its environment, capturing light, shadow, and movement across its surface throughout the day. Its monolithic form conceals a fully integrated bar interior, creating a tension between minimal exterior architecture and intimate function. Made to order in Italy. Custom dimensions, interiors, and finishes available.
