SPECIFICATIONS

The Surfaced Cabinet blends different material characteristics within one functional sculpture. Ceramic tiles shape the front surface of the cabinet, merging together as one organic relief that seems a living structure set into stone. Every tile has its unique footprint and comes out of a different mold, creating a variety in shape and depth like a rhythm of fossils. The wooden foot is built up out of small vertical strokes of veneer that follow the natural lines of the wood.

Dimensions: W 182.5 cm / 71.9 in; D 42.5 cm / 16.7 in; H 91 cm / 35.8 in

Base: Walnut-stained wood, cylindrical

Front: White textured ceramic tiles (glazed earthenware)
