HL | WALL SCONCE

PRODUCT PHOTOGRAPHY & SPECIFICATIONS

CARLYLE COLLECTIVE

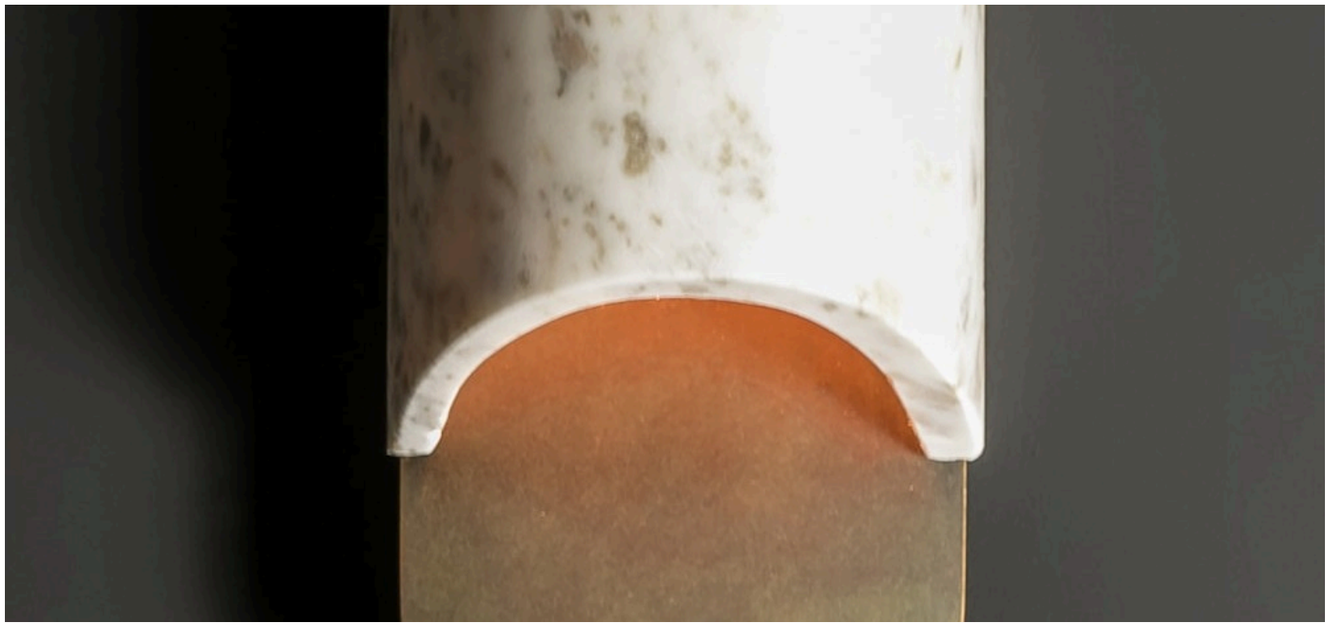

BY HELIO LIGHTS

CALACATTA VIOLA

PIETRA DEI MEDICI

DESCRIPTION

A unique, versatile sconce crafted from natural materials. The base is created from solid metal and is available in a range of high-end finishes, going from gun metal to nickel to polished brass. The sculpted marble cover lets the light diffuse softly from beneath, creating a warm and balanced glow.

The Marble Edition is developed together with Il Granito. Each marble piece is carefully selected from its quarry and brought to Belgium, where Il Granito crafts the stone. Working with all natural materials makes every HL 1 sconce unique.
