

ICHRA built for SMB brokers

If you're not offering ICHRA...your competitors are.

StretchDollar is the leading ICHRA administration solution for small businesses. We created our **ICHRA Partner Portal** to be the one-stop shop for brokers and their teams.

Keep BOR & PEPM

Add your HealthSherpa brokerage links in the states you're licensed. Plus, earn **\$22 PEPM** for all active employees.

5-minute quotes

Our quoting tool lets you build a fully customized ICHRA quote in minutes. You can send, edit, and track all quotes within your portal.

Customer care

StretchDollar supports your clients from day one—live chat, email, and hands-on help (& a 99% satisfaction score to boot!)

9/10

ICHRA employers renew their policy

“With a StretchDollar, I have been able to put together a quote on that first conversation...So it goes anywhere from a two week turnaround cycle to you can sell a group that week or even same day.”

— SMB Agent, National Brokerage

How it works

- Build & send your clients a quote that matches their needs.
- Clients set up their ICHRA portal — details pre-populated from their quote.
- Employees shop & enroll in a plan, then they submit reimbursements.
- Reimbursements run automatically each month.

About StretchDollar

StretchDollar is the only ICHRA platform built solely for small businesses <50 employees — and the brokers that serve them
