

SYSTEM ACCESSORIES

Pre-Separators and Vacuum Hoppers

For Industrial Vacuum Systems

Bulk Hopper

In-line material collection hoppers roll forward and self-unload. Fabricated of 1/4" plate steel and designed for severe, industrial use.

1.0 Yrd3 with cam connectors

Standard features:

- » Withstands up to 20" Hg vacuum
- » Internal baffle plate
- » Roll forward safety chain

Please specify inlet and outlet hose connection size and type at time of quote request.

Top Hat Wet & Dry Drum Filler

Aluminum version with cams.
Rubber gasket creates seal.

Turn any 55 gallon drum into a cyclone separator. Capture 85% of fines and 100% aggregate before it gets to your filters.

Fabricated of 12 Ga. painted steel or 11 Ga. aluminum.

Please specify inlet and outlet hose connection size and type at time of quote request.
