

PowerLift™ Series

PowerLift XL™

More capacity. Longer run times. Better performance on fine materials.

- **Built for fine materials:** Optimized for materials with a high percentage of fines.
- **More recovery, fewer interruptions:** A larger 2.5 cu. yd. hopper means fewer dump cycles.
- **Reduced filter maintenance:** Up to 150% more filter media and PulseJet cleaning keep air flowing.
- **Faster large-scale cleanup:** 50" filter separator for increased capacity and airflow.
- **Flexible deployment:** Forklift-portable for changing cleanup locations.

Designed for facilities handling mixed bulk-density materials with a high percentage of fines, the PowerLift XL combines increased material capacity, enhanced filtration and reduced maintenance requirements in a forklift-portable platform.

Model	PL 30 XL	PL 40XL	PL 50XL
System horsepower	30 HP	40 HP	50 HP
Performance (TPH)	4.5	6.0	8.0
Airflow - inlet (CFM)	650	860	1050
Vacuum (Max)	16" Hg		
Pulse filter area (ft ²)	300.00		
Hopper volume (yd ³)	2.5		
Filter housing diameter (in)	50		
Can velocity (ft/min)	46	60	73
