Growing with Responsibility

Annual CSR Report · FY 2025–26

Committed to Agriculture.
Committed to Society.

GSP CROP SCIENCE LIMITED

OUR FOUR PROGRAMME PILLARS

FOOD SECURITY

Providing structured, recurring nutritional support to vulnerable groups including elderly citizens, daily wage workers, slum residents, and low-income families.

EDUCATION SUPPORT

Empowering minds and creating opportunities for a brighter future through access to quality education and learning resources.

HEALTHCARE ACCESS

Promoting well-being and improving quality of life through healthcare support, awareness, and community health initiatives.

COMMUNITY DEVELOPMENT & ANIMAL WELFARE

Promoting animal welfare by supporting Gaushalas and encouraging sports participation and youth development within local communities.

FOREWORD

Message from the CMD

“Sustainable growth is meaningful only when it creates lasting value for society and future generations.”

At GSP Crop Science Limited, we believe sustainable growth is inseparable from the well-being of the communities around us. In FY 2025–26, we strengthened this commitment through focused CSR initiatives across food security, education, healthcare, environmental sustainability, community development, and animal welfare.

Our efforts included providing nutritional support through community food programmes, enhancing educational infrastructure and learning environments, supporting healthcare access, and promoting community development & animal welfare.

These initiatives reflect our belief that responsible businesses contribute to stronger, more resilient communities—and that thriving communities, in turn, support sustainable business growth.

As we move forward, we remain committed to expanding our impact, strengthening measurement and accountability, building meaningful partnerships, and integrating environmental responsibility into both our operations and community initiatives.

I extend my sincere gratitude to our employees, partners, and community members whose dedication made these achievements possible.

Together, we continue to grow with responsibility and purpose.

ABOUT GSP CROP SCIENCE LIMITED

GSP Crop Science Limited is a leading agrochemical company committed to delivering innovative crop protection and agricultural solutions that support farmers across India and international markets. Driven by a strong foundation of research, quality, and customer focus, the company has established itself as a trusted partner in advancing agricultural productivity and sustainability.

With a diverse portfolio of crop protection products and a commitment to innovation, GSP plays an important role in supporting farmers to improve crop yields, protect agricultural resources, and contribute to food security.

Beyond business operations, GSP recognizes its responsibility towards society and the environment. Corporate Social Responsibility forms an integral part of the company's values and long-term vision. Through focused initiatives in education, healthcare, environmental sustainability, community development, and social welfare, GSP seeks to create positive and measurable impact in the communities it serves.

At GSP, growth is not measured solely by business success but also by the value created for society. The company remains committed to responsible business practices that contribute to sustainable development and inclusive growth.

Our Core Values

INTEGRITY

We operate with transparency and accountability in every decision commercial, operational, and social.

INNOVATION

We pursue better solutions — in crop science and in community development — through continuous learning and creative thinking.

SUSTAINABILITY

We take decisions today that preserve options tomorrow — for our business, for farmers, and for the environment.

RESPONSIBILITY

We hold ourselves accountable to communities, stakeholders, and the natural systems on which agriculture depends.

EXCELLENCE

We set high standards for product quality, service delivery, and social impact — and measure ourselves honestly against them.

COMMUNITY ENGAGEMENT

We build lasting relationships with the communities in which we operate, contributing to their development as active participants — not bystanders.

CSR VISION, MISSION & GOVERNANCE

VISION

To build sustainable, inclusive communities by improving quality of life, empowering individuals, and protecting the natural environment — through responsible business conduct and purposeful social investment.

MISSION

To design, fund, and implement high-impact CSR initiatives that address genuine community needs in food security, education, healthcare, environmental sustainability, and social welfare — with measurable outcomes and transparent governance.

CSR PHILOSOPHY

At GSP Crop Science Limited, CSR is not charity — it is the systematic application of business resources to social problems where our interventions can create lasting value. Our philosophy rests on five principles:

INCLUSIVENESS

Prioritising underserved and economically vulnerable populations in all programme design.

SUSTAINABILITY

Investing in interventions that generate durable outcomes, not one-time relief.

PARTNERSHIP

Collaborating with community organisations to maximise reach and effectiveness.

ACCOUNTABILITY

Maintaining transparent financial and operational records for all CSR expenditure and activity.

IMPACT ORIENTATION

Defining success by measurable change in beneficiary lives — not by spend or activity volume.

CSR GOVERNANCE FRAMEWORK

- CSR governance at GSP is structured to ensure strategic alignment, efficient resource deployment, and rigorous accountability. The CSR function operates under the oversight of the Board, with a dedicated CSR Committee responsible for policy, programme approval, budget authorisation, and annual reporting.
- Programme identification follows a community needs assessment process, which evaluates social gaps, beneficiary reach, implementation feasibility, and alignment with Schedule VII of the Companies Act, 2013. Approved programmes are tracked against defined outcomes, and post-implementation reviews inform future planning cycles.

NOURISHING COMMUNITIES

Food insecurity affects thousands of households in peri-urban and rural Gujarat — not as a crisis event, but as a persistent, daily reality. GSP's food security programmes are designed to provide structured, recurring nutritional support to the most vulnerable: elderly citizens, daily wage workers, slum residents, and low-income families. In FY 2025–26, six active programmes operated across five geographies.

100+

WEEKLY
BENEFICIARIES

52

CONSECUTIVE
SATURDAYS

WEEKLY KHICHDI & KADHI DISTRIBUTION PROGRAM

"Consistency in giving creates lasting impact."

As part of our ongoing community outreach efforts, GSP supports a weekly meal distribution program serving Khichdi and Kadhi to approximately 100+ beneficiaries every Saturday.

This initiative was established with the objective of providing nutritious, freshly prepared meals to individuals facing economic hardships, including elderly citizens, laborers, and low-income families.

Beyond nutrition, the program fosters a sense of belonging and reassurance within the community. The regularity of the initiative ensures that beneficiaries receive dependable support, reinforcing the importance of compassion and collective care.

SUPPORTING MANAVSEVA TRUST'S FREE TIFFIN SEVA

"When communities come together, every meal becomes an act of kindness."

Recognizing the remarkable work carried out by charitable organizations, GSP partnered with Manavseva Trust by contributing spices and essential food ingredients for its free tiffin service.

The trust prepares and distributes freshly cooked meals to senior citizens, patients, daily wage workers, and underprivileged individuals who depend on community support for their daily nutrition. By strengthening the supply chain of this noble initiative, GSP contributed to ensuring the uninterrupted preparation of wholesome meals for beneficiaries.

This collaboration reflects our belief that meaningful partnerships can amplify social impact and create sustainable support systems for vulnerable populations.

FOOD DISTRIBUTION GABAT, ARAVALLI

"A meal can nourish the body, but compassion nourishes the spirit."

In the rural regions of Gabat, Aravalli, several families face challenges in accessing consistent and nutritious food. To support these communities, GSP Crop Science Limited organized food distribution drives aimed at reaching individuals and families in need.

The initiative focused on providing essential food supplies and ready-to-consume meals, helping improve food accessibility for economically vulnerable households. Beyond addressing immediate nutritional needs, the program served as a gesture of solidarity with communities striving to overcome socio-economic challenges.

Through this effort, GSP reinforced its commitment to creating positive social impact and supporting communities where assistance is needed the most.

FOOD DISTRIBUTION

KATHWADA SLUM AREA

"Small acts of kindness can create meaningful change."

The Kathwada slum area is home to numerous families who face daily economic challenges. To support these communities, GSP organized food distribution drives aimed at improving access to essential nourishment.

Meals and food packets were distributed to residents, helping address immediate food requirements and supporting household well-being. Through this initiative, GSP sought to stand alongside underserved communities and contribute toward a more equitable and compassionate society.

FOOD DISTRIBUTION

RAMAPIR TEKRA, AHMEDABAD

"Every community deserves support, dignity, and opportunity."

Food distribution activities were carried out in Ramapir Tekra, Ahmedabad, where many families continue to face financial and social challenges.

The initiative focused on providing nutritious food to underprivileged individuals while promoting community welfare and inclusion. By extending support to marginalized sections of society, GSP continues to uphold its commitment to responsible citizenship and social development.

CELEBRATING FESTIVALS WITH DIGNITY

DIWALI KIT DISTRIBUTION

"The true spirit of celebration lies in sharing happiness."

Festivals bring families together and symbolize hope, prosperity, and joy. However, for many economically disadvantaged families, celebrating festivals can be difficult due to limited resources.

To ensure that the festive spirit reaches every household, GSP distributed Diwali kits containing essential food items and household necessities to deserving families. The initiative enabled beneficiaries to celebrate the festival with dignity while reducing financial burden during the festive season.

Through this effort, GSP reaffirmed its belief that prosperity becomes meaningful when shared with the community.

EMPOWERING EDUCATION

Education has the power to transform lives, strengthen communities, and create opportunities for future generations. At GSP Crop Science Limited, we believe that every child deserves access to a safe, supportive, and inspiring learning environment. Through investments in educational infrastructure, learning resources, and student welfare initiatives, we are committed to empowering young minds and contributing to the development of a more knowledgeable and capable society.

SCHOOL BAG DISTRIBUTION PROGRAMME

"Every school bag carries more than books—it carries aspirations."

For many families, the cost of educational supplies can become a barrier to learning. To support students from economically disadvantaged backgrounds, GSP organized school bag distribution programs aimed at equipping children with essential resources for their academic journey.

The initiative sought to encourage school attendance, boost student confidence, and create a sense of belonging among young learners. By providing quality school bags, GSP helped students carry their educational materials comfortably while fostering enthusiasm towards learning.

Through this initiative, we reaffirm our belief that even simple interventions can create meaningful opportunities for children to pursue their dreams without limitations.

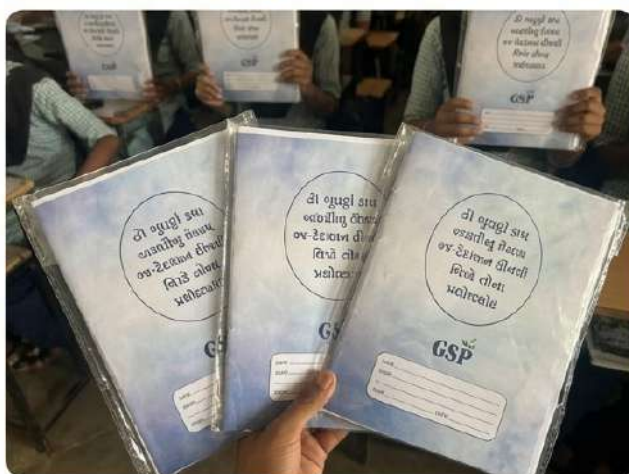

NOTEBOOK DISTRIBUTION PROGRAMME

"Education begins with a blank page filled with possibilities."

Access to basic educational materials remains a challenge for many students. To address this need, GSP distributed notebooks and learning materials to school children, helping them continue their education without interruption.

The initiative aimed to reduce the financial burden on families while encouraging students to engage actively in classroom learning. By supporting access to essential academic resources, GSP contributed towards creating an environment where students can focus on learning, creativity, and personal growth.

Every notebook distributed symbolizes an investment in knowledge, opportunity, and the future potential of a young learner.

CONSTRUCTION OF DEDICATED SCIENCE CLASSROOMS

"Strong classrooms build stronger futures."

Recognizing the growing demand for quality science education, GSP supported the construction of dedicated classrooms for Class 12 Science students. The initiative was designed to enhance educational infrastructure and create a conducive environment for academic achievement.

Modern and well-equipped classrooms provide students with the space and resources needed to focus on learning, experimentation, and intellectual development. The project contributes towards strengthening science education and preparing students for higher education and professional opportunities.

By investing in educational infrastructure, GSP is helping create long-term value that will benefit generations of students to come.

AIR CONDITIONING INSTALLATION IN SCHOOL

"When students are comfortable, learning flourishes."

A positive learning environment plays a crucial role in educational outcomes. To improve classroom conditions and enhance student well-being, GSP supported the installation of air-conditioning systems in educational institutions.

The initiative helps create a comfortable atmosphere for both students and educators, particularly during periods of extreme weather. Improved classroom conditions support concentration, reduce fatigue, and contribute to a more effective teaching and learning experience.

This effort reflects GSP's commitment to ensuring that students have access to learning spaces that encourage academic excellence and personal development.

INSTALLATION OF A 10 KW SOLAR POWER SYSTEM IN A SCHOOL

"Empowering education with clean energy, one ray of sunlight at a time."

Access to reliable and sustainable energy is essential for creating effective learning environments. In line with our commitment to environmental responsibility and educational development, GSP Crop Science Limited supported the installation of a 10 KW solar power system in a school.

The initiative was undertaken to promote the adoption of renewable energy while reducing dependence on conventional power sources. By utilizing solar energy, the institution can generate clean electricity, lower its carbon footprint, and reduce long-term energy expenses. The project not only enhances the school's operational sustainability but also serves as a practical learning example for students, encouraging awareness of renewable energy technologies and environmental conservation.

Beyond its environmental benefits, the solar installation demonstrates how sustainable infrastructure can create lasting value for educational institutions and the communities they serve. Through this initiative, GSP is contributing to a future where clean energy solutions become an integral part of community development and environmental protection.

SPONSORSHIP OF SCHOOL CULTURAL PROGRAMMES

"Education is not only about knowledge—it is also about expression."

Cultural activities play an important role in the holistic development of students. To encourage creativity, confidence, and self-expression, GSP supported cultural programs organized by educational institutions.

These events provide students with opportunities to showcase their talents, build leadership skills, and celebrate cultural diversity. Participation in such activities helps foster teamwork, communication, and confidence—qualities that are essential for personal and professional success.

Through this initiative, GSP contributes towards creating well-rounded individuals prepared to become future leaders and responsible citizens.

ADVANCING HEALTH & WELL-BEING

Good health is the foundation of a productive and prosperous society. At GSP Crop Science Limited, we recognize that access to healthcare remains a challenge for many communities. Through preventive healthcare initiatives and medical outreach programs, we strive to improve health awareness, facilitate early diagnosis, and support the overall well-being of individuals and families.

MEDICAL HEALTH CAMP

"Healthcare becomes meaningful when it reaches those who need it most."

To promote preventive healthcare and improve access to medical services, GSP organized health camps for community members. These camps provided basic health screenings, medical consultations, and awareness regarding common health concerns.

The initiative aimed to encourage proactive health management while supporting individuals who may have limited access to healthcare facilities. By facilitating timely medical guidance and preventive care, the program contributed towards improving health outcomes and community well-being.

Through these efforts, GSP continues to support healthier communities and reinforce the importance of accessible healthcare services.

EYE CHECK-UP CAMP

"Clear vision opens the door to greater opportunities."

Vision plays a critical role in education, employment, and quality of life. To support eye health and encourage early detection of vision-related issues, GSP organized eye screening camps for community members.

Participants received professional eye examinations and guidance on maintaining eye health. The initiative helped identify individuals requiring corrective measures and encouraged greater awareness regarding preventive eye care.

By promoting eye health, GSP seeks to enhance quality of life and support the long-term well-being of individuals across communities.

COMMUNITY DEVELOPMENT & SOCIAL RESPONSIBILITY

GSP Crop Science Limited is committed to strengthening communities through initiatives that promote social well-being, animal welfare, and youth engagement. Our support to local Gaushalas contributes to the care and protection of cattle, while our involvement in sports and youth development programmes encourages leadership, teamwork, and healthy lifestyles. Through these efforts, we aim to foster inclusive, compassionate, and resilient communities.

**ANIMAL
WELFARE**

**COMMUNITY
ENGAGEMENT**

SUPPORT FOR GAUSHALA WELFARE INITIATIVES

"A truly compassionate society extends its care to every living being."

Animal welfare has long been an integral part of India's social and cultural ethos. Recognizing the valuable role played by Gaushalas in protecting and caring for cattle, GSP Crop Science Limited extends support to institutions dedicated to animal welfare and sustainable livestock care.

Through various support and distribution initiatives, GSP contributes towards improving the well-being of cattle housed in Gaushalas while assisting organizations that work tirelessly to provide shelter, nourishment, and medical care to animals.

These efforts reflect our commitment to promoting empathy, responsible stewardship, and community values that encourage coexistence and care for all living beings.

By supporting Gaushalas, GSP seeks to contribute to the preservation of traditional values while encouraging a culture of compassion and responsibility within society.

GRASS DISTRIBUTION FOR CATTLE WELFARE

"Care is not measured by words, but by the nourishment we provide."

Adequate nutrition is essential for maintaining the health and well-being of cattle. To support the daily requirements of animals residing in Gaushalas, GSP Crop Science Limited undertakes grass and fodder distribution initiatives aimed at ensuring their proper nourishment.

These efforts help Gaushalas manage feeding requirements more effectively while contributing to the overall welfare of the animals under their care. By providing essential fodder support, GSP assists organizations working at the grassroots level to safeguard livestock and uphold animal welfare standards.

The initiative demonstrates our belief that social responsibility encompasses not only human welfare but also the well-being of animals that form an important part of our agricultural and cultural heritage.

Through continued support for Gaushalas and livestock care initiatives, GSP remains committed to fostering a more compassionate, responsible, and inclusive society.

EVERY CHILD DESERVES TO PLAY REGARDLESS OF ABILITY OR INCOME

"Sports do not merely build athletes—they build character, confidence, and communities."

GSP Crop Science Limited's sports development initiatives encompass ground maintenance, equipment provision, coaching access for financially disadvantaged youth, and dedicated motivational and sporting support for children with physical disabilities — because inclusion in sport is not optional, it is fundamental.

In communities GSP works with, two overlapping groups of children face near-identical barriers to sport: those from financially disadvantaged households who cannot afford equipment, coaching, or facility access — and children with physical disabilities, who face those same barriers compounded by the additional weight of social exclusion and the assumption that sport is simply not for them.

GSP Crop Science Limited challenged both assumptions directly — through infrastructure support, equipment provision, structured training, and an active programme of motivational engagement for disabled youth that says, unambiguously: you belong on this ground too.

Four areas of intervention

- Sports Ground Maintenance & Upkeep
- Sports Equipment for Financially Disadvantaged Children
- Coaching & Structured Training Support
- Motivational Support & Sports Inclusion for Physically Disabled Children

IMPACT DASHBOARD

The following summary consolidates key outputs and reach data from GSP's CSR programmes in FY 2025 -26. Where precise beneficiary counts are available, they are stated; where programmes are ongoing, frequency and reach estimates are provided. GSP is committed to strengthening its impact measurement systems in FY 2025-26 to enable more granular outcome tracking.

FUTURE ROADMAP & COMMITMENTS

As we move into FY 2026–27, GSP Crop Science Limited remains committed to creating meaningful social impact through focused and inclusive CSR initiatives. Building on the progress achieved in previous years, we aim to strengthen our efforts in education, food security, healthcare, elderly care, and animal welfare. Our future roadmap is designed to address evolving community needs while fostering long-term well-being and sustainable development.

STRATEGIC PRIORITIES - FY 2026-27

01

Promoting Education - Continuing to empower young minds through enhanced access to education, learning resources, and opportunities for growth.

02

Medical Aid - Expand healthcare outreach by adding at least two additional health camp disciplines (dental, gynaecological, or general paediatric) and by establishing referral linkages with district health facilities to ensure follow-through care.

03

Food Distribution - Scale the weekly meal programme to additional locations, with a target of increasing regular beneficiaries by at least 50% over the prior year.

04

Financial Aid for feeding Animals - Continuing to support animal welfare by contributing to feeding and care programmes for Gaushalas and shelter animals.

05

Old Age Homes - Supporting the well-being, dignity, and care of elderly residents through targeted assistance programmes.

06

Appropriate Donation / sponsorship to community /social /charitable Institutions of repute engaged in activities in line with our CSR Policy

CLOSING STATEMENT FY 2025-26

GROWING WITH RESPONSIBILITY

Growing responsibly today,
nurturing a sustainable tomorrow.

As we conclude FY 2025-26, GSP Crop Science Limited remains committed to creating meaningful and lasting impact through responsible business practices and community-focused initiatives.

We thank our stakeholders, employees, partners, and communities for their continued support as we work together towards a more sustainable, inclusive, and prosperous future.

"Progress is meaningful only when it improves lives. While our journey began with agriculture, we have always believed that businesses carry a greater responsibility—to support communities and create opportunities for a better future.

Every initiative in education, healthcare, environmental sustainability, and community development brings us closer to a stronger and more inclusive society. True success is measured not only by business growth, but by the positive impact we create for others.

As GSP continues to grow, may we remain guided by integrity, compassion, and service, working together to build a lasting legacy for future generations."
