CRAZYPRO NT

PROTEIN HYDROLYSATE 20% (Plant Source)

- CRAZYPRO NT is a highly effective bio-stimulant recommended for improving overall plant growth and productivity.
- It gives better absorption of nutrients.
- It plays a crucial role in increasing the number of flower buds while reducing their premature drop, thereby improving the plant's flowering potential.
- Easy to use, can be mixed with fungicides and insecticides.

Available Packs: 50ml, 250ml, 500ml, 1L

Dose: 600ml / acre

FLUTE

PACLOBUTRAZOL 23% W/W SC

- Growth Regulation: Reduces excessive vegetative growth in plant and promotes compact plant growth, making canopy management easier.
- It increases the number of flowers, also improves flower retention leading to better fruit set and improved fruit quality.
- Helps plants manage stress from drought or nutrient deficiency by regulating water use and nutrient absorption.

Available Packs: 50ml, 250ml, 500ml, 1L

Dose: 15 ml / plant
