PROFESSIONAL COST ESTIMATING
PROFESSIONAL RESULTS

About Us

DeFacto Consulting Group is a Professional Cost Estimating firm offering Construction Cost Estimating, Insurance Appraisal, Building Consulting, and Expert Witness Services to the Insurance, Legal, and Property Development industries.

Our Professional Estimators are held to the highest standards in the industry as stated in the Code of Ethics established by the ASPE.

COMPETENCE

Professional Estimators shall represent truthfully their qualifications and capabilities to perform services in areas of their discipline with integrity.

ACCURACY

Professional Estimators shall utilize their education, years of experience, and acquired skills to make each estimate as accurate as their talents and abilities allow.

EDUCATION

Professional Estimators shall continue to expand their professional capabilities through continuing education to better serve clients, employers, and the industry.

ETHICAL PRACTICE

Professional Estimators shall conduct themselves with integrity at all times, treating all involved parties in a fair and equitable manner.

RESPECTABILITY

Professional Estimators shall conduct themselves in a manner which promotes cooperation among all those directly related to our profession.

CONFIDENTIALITY

Professional Estimators shall safeguard and keep in confidence all knowledge of the business affairs and technical procedures of our clients.

Cost Estimating

PROFESSIONAL COST ESTIMATING

It's what we do. It's who we are. DFCG's professional estimators are experts in residential, multi-family, commercial, and institutional cost estimating in both new construction and restoration scenarios.

Our people have decades of experience working hand in hand with Professional Engineers and Registered Architects in developing remedial repair plans and providing accurate cost estimates.

It's the kind of critical information that enables attorneys, adjusters, property owners, and developers to make well-informed decisions.

INSIST ON A PROFESSIONAL ENGINEER?

INSIST ON A PROFESSIONAL ESTIMATOR!

Being accredited as a Certified Professional Estimator by the American Society of Professional Estimators is the highest form of professional recognition a cost estimator can achieve.

At DFCG, we hold our professional estimators to the highest standards in the industry. After all, cost estimating is who we are and what we do. When you need professional results, insist on a professional estimator!

Court Services

LITIGATION SUPPORT

Our Professional Estimators have served as testifying and consulting experts, as well as provided litigation services in support of hundreds of construction defect claims, insurance suits, and subrogation claims.

DFCG's legal work includes multiple appearances in depositions, trials, arbitrations, and mediations.

ALTERNATIVE DISPUTE RESOLUTION

Whether you are facing mediation, arbitration, or appraisal, a competent, impartial, and experienced neutral is key to accurately resolving the issue at hand.

Often charged with the task of parsing through technical and sometimes conflicting opinions, DFCG's seasoned neutrals strive to provide efficient and fair resolution of disputes.

Appraisal Services

BUILDING CONSULTING

Having evaluated and estimated literally thousands of structures over the past decades, DFCG has the knowledge needed to evaluate potential causes and source competitive pricing for required repairs.

While many building consultants stick with published line item pricing, DFCG investigates further into real world, data-driven information.

INSURANCE APPRAISAL

In the often murky and unclear world of insurance appraisal, DFCG is transparent, data-driven and factually based. Our extensive experience includes some of the largest, most complex claims in the industry.

While some appraisers aim to muddy the waters, we have always found success by letting the facts speak for themselves.
