Regular price **¥54,000**

**¥50,980** (Tax incl.)

**Campaign price**

Regular price **¥93,000**

**¥87,980** (Tax incl.)

## How It Works

- Semaglutide is a GLP-1 receptor agonist, while Tirzepatide targets both GLP-1 and GIP receptors, helping regulate blood sugar and support weight loss through dual hormone action.

It promotes:

### Increased insulin secretion

Helps lower blood sugar levels, so your body can use glucose more effectively for energy

### Reduced glucagon levels

Prevents excessive glucose production, stabilizing blood sugar, so you avoid energy crashes and sugar spikes

### Slower gastric emptying

Keeps you feeling full longer, reducing appetite, so you naturally eat less without feeling deprived

### Enhanced metabolic efficiency (Tirzepatide only)

Activates both GLP-1 and GIP pathways, making it the most effective GLP-1 option for weight loss and metabolic health

## Injectable medication: How to Use

- **Injection Sites:** Inject into the soft area of your abdomen, thigh, or upper arm, just beneath the skin.
- **Rotation & Timing:** Rotate sites weekly to prevent irritation and inject on the same day each week.
- **Gentle & Easy:** Single-use, prefilled pens with a thin and short needle ensure a simple, low-pain injection process.

## Oral medication: How to Use

- **Take once daily, orally** – Preferably in the morning on an empty stomach
- **Wait at least 30 minutes** before eating, drinking, or taking other medications
- **Take with only water** – No more than half a glass (120 mL) for proper absorption

### Dosage schedule

| 1st month               | 2nd month   | 3rd month+           |
|-------------------------|-------------|----------------------|
| Semaglutide (injection) |             |                      |
| 0.25 mg/week            | 0.5 mg/week | 1 mg to 2.4 mg/week  |
| Tirzepatide             |             |                      |
| 2.5 mg/week             | 5 mg/week   | 7.5 mg to 10 mg/week |
| Semaglutide (oral)      |             |                      |
| 3 mg/day                | 7 mg/day    | 14 mg/day            |

At Juniper, you'll only pay for the medication — the rest comes at no charge:
