How It Works

Semaglutide is a GLP-1 receptor agonist, while Tirzepatide targets both GLP-1 and GIP receptors, helping regulate blood sugar and support weight loss through dual hormone action.

It promotes:

Increased insulin secretion

Helps lower blood sugar levels, so your body can use glucose more effectively for energy

Reduced glucagon levels

Prevents excessive glucose production, stabilizing blood sugar, so you avoid energy crashes and sugar spikes

Slower gastric emptying

Keeps you feeling full longer, reducing appetite, so you naturally eat less without feeling deprived

Enhanced metabolic efficiency (Tirzepatide only)

Activates both GLP-1 and GIP pathways, making it the most effective GLP-1 option for weight loss and metabolic health

Injectable medication: How to Use

Injection Sites

- ✓ Inject into the soft area of your abdomen, thigh, or upper arm, just beneath the skin.

Rotation & Timing

- ✓ Rotate sites weekly to prevent irritation and inject on the same day each week.

Gentle & Easy

- ✓ Single-use, prefilled pens with a thin and short needle ensure a simple, low-pain injection process.

Oral medication: How to Use

- ✓ Take once daily, orally – Preferably in the morning on an empty stomach

- ✓ Wait at least 30 minutes before eating, drinking, or taking other medications

- ✓ Take with only water – No more than half a glass (120 mL) for proper absorption

Dosage schedule

Doses increase gradually month by month

Medication	1st month	2nd month	3rd month+
Semaglutide (injection)	0.25mg/week	0.5mg/week	1mg/week
Tirzepatide (injection)	2.5mg/week	5mg/week	5mg/week
Semaglutide (oral)	3mg/day	7mg/day	14mg/day

At Juniper, you'll only pay for the medication — the rest comes at no charge:

- ✓ Online consultations with English-speaking doctors
- ✓ Ongoing medical support in English to manage side effects
- ✓ Personalized health coaching from registered dietitians
- ✓ Free and discreet delivery to any address in Japan
- ✓ 30-day money-back guarantee
- ✓ Monthly delivery for consistency (pause or cancel anytime)
