Set within one of Milan's most iconic architectural landmarks, Milan Torre Velasca occupies the prestigious upper floors of the historic Torre Velasca, offering 72 meticulously designed suites, residences, and penthouses across floors 19 to 26, with sweeping views of the Milanese skyline. The development is designed to combine the comfort of a private home with the services of a refined hospitality experience, available for both short and long-term stays. Each residence frames panoramas that range from the spires of the Duomo to the rooftops of the fashion district through floor-to-ceiling windows, shifting from soft morning light to the warm glow of the aperitivo hour.

The significance of Torre Velasca extends far beyond its unmistakable silhouette. Designed in the 1950s by BBPR, one of Italy's leading post-war architectural studios, Torre Velasca was among the first skyscrapers conceived not only as an office building but also as a residential tower. Every apartment was designed with its own private terrace, framing panoramic views across Milan, an exceptionally progressive approach decades before outdoor living became a defining feature of luxury residences.

The recent restoration has carefully preserved the tower's original architectural vision. Period-inspired finishes and materials have been thoughtfully incorporated throughout the residences, ensuring stylistic continuity with BBPR's original design while seamlessly integrating contemporary comfort.

The collection of furnished one to three-bedroom apartments is available for flexible stays from one month, making it especially well suited to international managers and executives in extended mobility who seek a residential setting within a five-star environment. The placement of short, medium and long-term stays is handled by Tirelli & Partners, one of a select group of Milan agencies entrusted with the project and a long-established name in the city's high-end residential market.

A Landmark Address in the Center of Milan

Few addresses place residents as close to the cultural and commercial heart of the city, where historic Milan and its contemporary fashion and business districts converge within walking distance.

Moments from the Duomo and the Fashion District

Situated in the heart of Milan, Milan Torre Velasca sits just moments from the Duomo, Via Montenapoleone, and Piazza della Scala. The position offers direct access to the city's cultural institutions, flagship boutiques, and celebrated dining scene, while the upper-floor residences preserve a sense of privacy and seclusion above the activity of the streets below.

Connected to the City and Beyond

The central location places residents within easy reach of Milan's principal business hubs and transport connections, linking the city to the rest of Italy and to international destinations. For executives dividing their time between cities, the combination of a recognizable address and seamless connectivity makes Milan Torre Velasca a practical base as much as a distinguished one.

Residences and Services Within a Historic Tower

Behind the tower's distinctive facade, the residences and shared spaces have been conceived to deliver the privacy of a home alongside the conveniences of a hospitality-led address. Every interior embodies the Italian philosophy of design, where exceptional attention to detail and craftsmanship are considered essential elements of everyday living.

Dining, Wellness, and Members' Spaces

Residents have access to an exceptional range of on-site amenities. Two restaurants anchor the dining offering, one presenting an inventive fusion of Japanese, Brazilian, and Peruvian cuisine, the other a refined Italian destination inspired by Milanese elegance. A spa drawing on traditional bathing rituals and a state-of-the-art fitness center complete the wellness provision, while a private members' club dedicated to culture, business, and social connection hosts curated events and networking opportunities for an international community of residents.

Suites, Residences, and Penthouses

Located across the tower's upper eight floors (19th to 26th), the 72 furnished residences include suites, apartments, and penthouses in a variety of layouts, all designed to make the most of the tower's exceptional setting. Occupying the 25th and 26th floors, the penthouses are arranged as duplex residences. On the 26th floor, a spectacular wraparound terrace encircles the entire level, offering uninterrupted 360-degree views across Milan and creating one of the city's most distinctive outdoor living experiences.

Layouts range from one to three bedrooms, each finished to a consistent standard and oriented to make the most of the skyline views. The floor-to-ceiling glazing turns each interior into a vantage point over the city, while the furnished, move-in-ready format suits the flexible stays that define the project.

An Exclusive Way to Belong in Milan

Milan Torre Velasca represents a rare opportunity to live within one of the city's most celebrated landmarks, combining world-class amenities, exceptional design, and an unrivaled central location. Positioned as an alternative to both the conventional hotel and the standard residence, it offers the autonomy of a private home within a five-star setting, tailored to those who wish to belong in Milan on their own terms.
