YACHTEYE

A smarter way to deliver the guest experience

yachteye.com

About YachtEye

YachtEye brings everything owners, guests and crew need together in one beautifully designed onboard platform.

Available on Apple TV, iPad and iPhone, YachtEye provides effortless access to itineraries, schedules, live yacht data, menus, crew profiles and much more.

YACHT EYE

The App for Your Yacht, available on Apple TV iPad iPhone

Everything Guests Need, Beautifully Presented.

From the itinerary and daily schedule to live yacht data, weather, menus and onboard information, YachtEye puts everything guests need at their fingertips.

Clear, intuitive and always up to date, it helps owners and guests feel informed, connected and completely at home on board.

Reasons why your yacht needs YachtEye

1 A better guest experience

Give guests everything they need in one intuitive and beautifully designed app, available on all onboard devices.

2 Make life easier for crew

Create, manage and update content quickly from an iPhone, iPad or computer.

3 One central source of information

Keep owners, guests and crew connected with accurate information across every onboard device.

4 Instant updates

Update itineraries, schedules and onboard information in real time and keep everyone informed with push notifications.

5 Less printing, less clutter

Replace printed itineraries, menus and crew profiles with one flexible digital platform.

6 Stay Connected with Your Yacht

Follow the journey in real time. From position, speed and heading to weather, water temperature and nearby yachts.

Trusted by 100+ Yachts

YachtEye is already used aboard more than 100 yachts worldwide. From 30-metre private yachts to the largest and most iconic charter yachts.

Owner's Testimonial

"With YachtEye, we have one place where everything comes together, not just for us, but also for our guests and crew.

The app is incredibly user-friendly and intuitive. It has now become the foundation of everything we do: our journey is documented, special moments are linked to the places we visit, and with the daily schedule, everyone can see what's planned for the day.

We highly recommend YachtEye to anyone looking for an efficient way to ensure clear communication on board and a fun way to capture all their adventures."

Owner M/Y 21.12 - 60m Amels

Onboard Installation

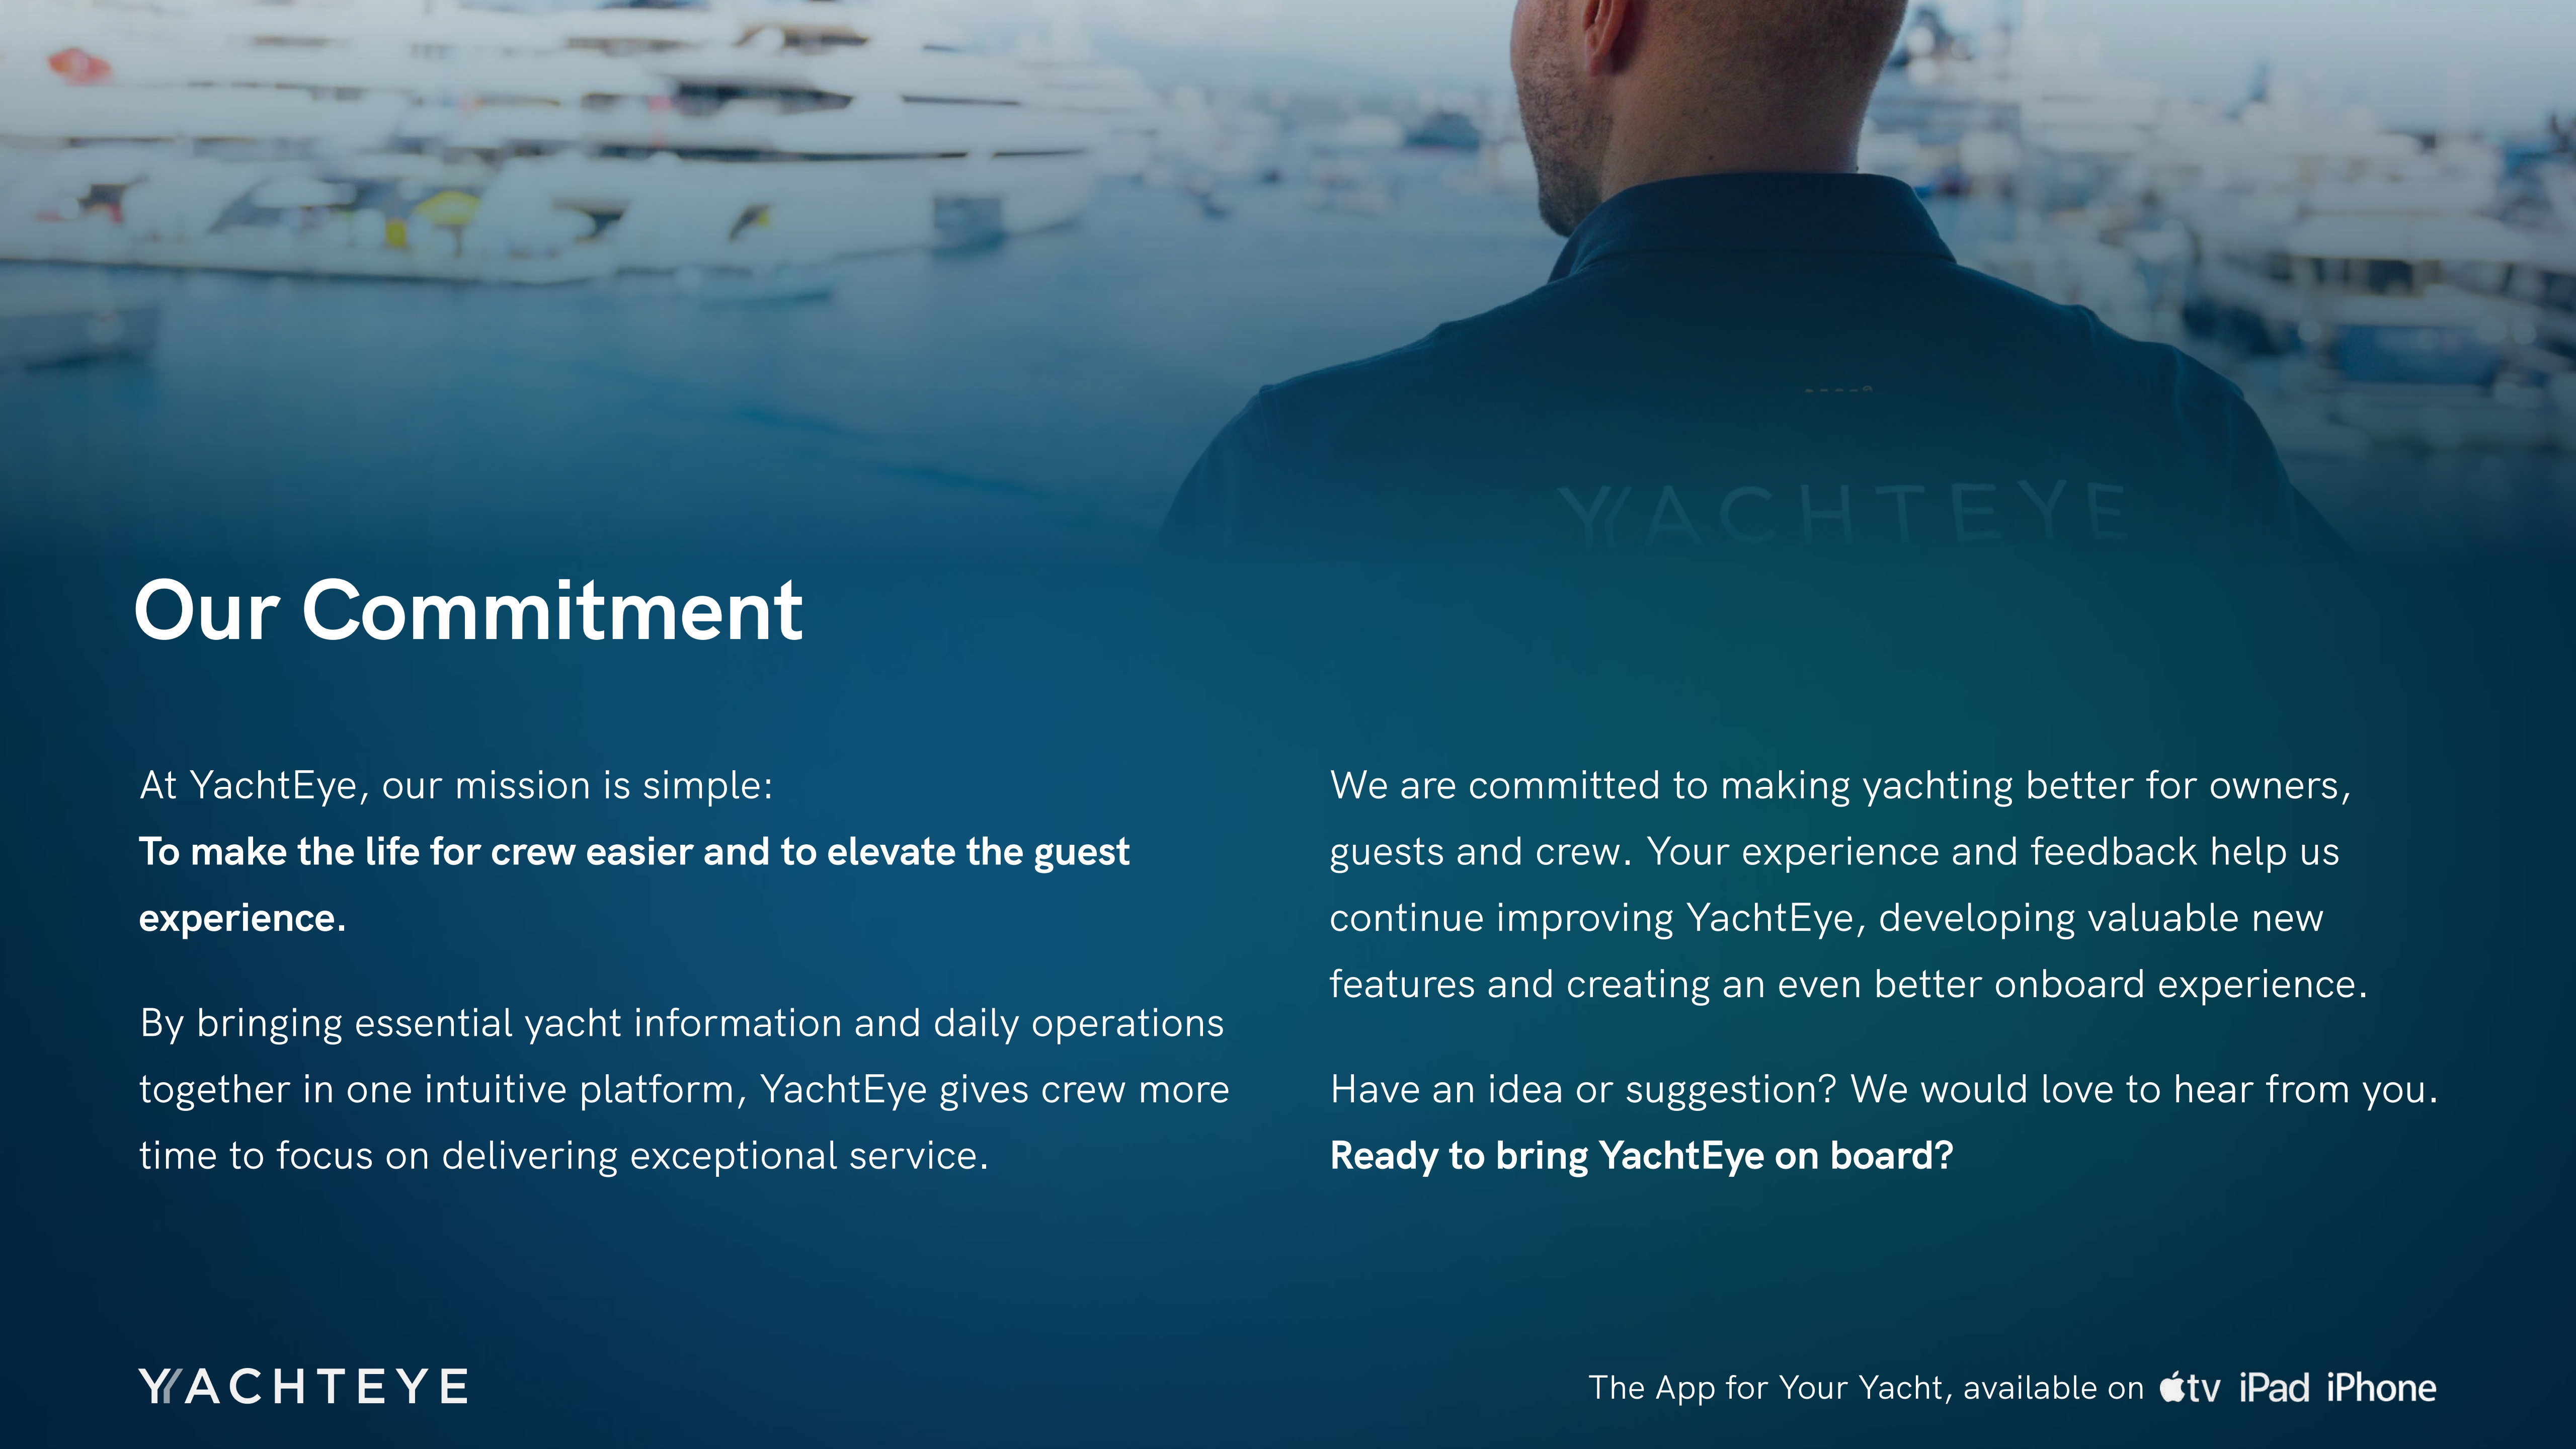

YachtEye runs on a compact onboard server (Mac mini), connecting the platform to your yacht's navigation and environmental data, AIS, tender tracking, CCTV and other onboard systems.

Our technical team provides remote support throughout the installation and commissioning process.

The requirements are:

- A LAN network connection
- An NMEA data feed (via the LAN network, RS-422, RS-232 or NMEA 2000)
- Optional: HDMI port in the video matrix (not required for Apple TV)

Our Commitment

At YachtEye, our mission is simple:

To make the life for crew easier and to elevate the guest experience.

By bringing essential yacht information and daily operations together in one intuitive platform, YachtEye gives crew more time to focus on delivering exceptional service.

We are committed to making yachting better for owners, guests and crew. Your experience and feedback help us continue improving YachtEye, developing valuable new features and creating an even better onboard experience.

Have an idea or suggestion? We would love to hear from you.

“Having experienced life on board myself as crew on both busy charter and private yachts, the team and I understand the unique demands of yacht operations and the expectations of both guests and crew.

It is this firsthand understanding that drives us. Every day, we are committed to enhancing the onboard experience and creating greater ease, clarity, and enjoyment for everyone on board.” – Daniel
