WHAT WE OFFER

Changing the way we learn mathematics.

At Atama Math we are committed to the excellence of each and every one of our students. We believe anyone no matter the age or level is capable of succeeding at mathematics.

Heidi W.
Atama Math Student

Even though I've just started working with Liv, I can clearly see how valuable a tutor she is. I'm taking IB SL analysis and approaches and Liv has helped me out by explaining key concepts as well as going over individual problems I've gotten stuck on. She is very dedicated to her work and is very patient when I don't understand something the first (or even the second) time. I really appreciate all the hard work Liv has put in and I would recommend her services to anyone looking for some extra help in math!

Why choose Atama Math ?

- Experienced and knowledgeable team of tutors
- Guaranteed problem solving framework
- Passionate business that delivers quality services

PAG VS PREPAID

Pay As You Go (PAG)

Pay for lessons **after** you attend them.

Payment for lessons by PayPal, EFT or Credit Card is due every second Monday.

**NO LOCK IN
CONTRACTS FOR
PAG.**

**SWITCH BETWEEN
PAG AND PREPAID
ANYTIME.**

Prepaid 10-Hour Package

Pay for lessons **before** you attend them.

Pay upfront and you get a credit of 10 hours.

MAKING PAYMENT

We accept payment via PayPal, EFT, or Credit Card.

When you sign up for tutoring with us, you will be asked your preferred payment method.

All details are confidential, are not visible, and are deleted from our system once tutoring has ceased.

Invoices will be sent via email once the payment is made.

We have a Biweekly Billing Cycle

If we use imaginary dates:

- The billing cycle runs from Monday 1st - Sunday 14th
- Monday 15th is billing day
- On Monday 15th, you are billed for all lessons that took place between the 1st - 14th

Lesson Rescheduling & Cancellations

To reschedule or cancel a session, contact your tutor directly at least 24 hours **PRIOR** to the session. If you reschedule or cancel a session with less than 24 hours notice, you may be charged the full cost of a tutoring session.

Termination of Tutoring

Please contact your tutor directly to cancel any upcoming lessons (remember you need to give them at least 24 hours notice or charges may apply). Next, notify Atama Math by emailing us at info@atamamath.com.

PAG Students

You must notify Atama Math within 21 days of your last lesson. If you haven't attended a lesson yet, you must contact Atama Math within 21 days of signing up. Failing to do so will result in a cancellation fee.

Any unpaid lessons will be billed as per usual at the end of the current biweekly billing cycle.

Prepaid 10-Hour Package Students

Any unused balance will be refunded, minus the full price of 1 PAG hour. You will be refunded at the end of our current biweekly billing cycle. Once processed, refunds can take 5-10 business days to reach your account.

FAQS

1. Are there any contracts?

No, we have no contracts. If you are not 100% satisfied, you can cease tutoring at any time. If you would like to change tutors for any reason, this can also be organised for you. Please contact us directly at info@atamamath.com.

3. What is the past experience of your tutors?

All our tutors have at least two years of relevant teaching in mathematics as well as 90% of our tutors hold a University degree.

5. How do I know my child is improving?

Biweekly reports are sent out to all students and parents. If you would also like to schedule a phone call with us feel free. Email info@atamalearning.com!

2. Can I switch between PAG and Prepaid?

Yes! You may do this at any time, simply contact us at hello@liskasstudyguides.com to have your billing settings changed. You can also switch from Prepaid to PAYG as well.

4. How long are lessons conducted?

Lesson timing, duration, and frequency are completely up to you! Most students do 1hr/week. However near exams, or students who need extra support we recommend 2 hours/week.

6. What makes Atama Math different ?

At Atama Math, we believe each and everyone one of our students can be succesful in mathematics. We encourage a students to develop a growth mindest and focus on learning the art of mathematical problem solving!
