

Physician Assistant, Orthopaedics

Cheshire Medical Center - Keene, NH

Dartmouth Health - Cheshire Medical Center is seeking a highly motivated **Physician Assistant (PA)**, to join their **Orthopaedics Department** in Keene, NH. Working with the Orthopaedics team, the PA will be involved in all aspects of Orthopaedic patient care. The majority of time will be spent in the outpatient clinic with a focus on sports medicine related problems, but also substantial time will be spent in the OR assisting on surgery and performing consults, procedures, and rounding in the inpatient unit and ED. This position is ideal for a PA who is looking for a fast-paced, collegial setting with exposure to a diverse work environment. The clinic is staffed with Orthopaedic Surgeons, Physician Assistants, Athletic Trainers, and flow staff who are highly trained in the musculoskeletal system and help provide flow, history, education, and other services to help optimize the clinic and help the Orthopaedic team provide top-notch quality patient care. This is a Monday through Friday position, hours will be ~7:30-5 pm, and a weekday and weekend call component is 1:7 at full staff.

About Cheshire Medical Center:

Cheshire Medical Center, a leading member of the world-class Dartmouth Health system, advances the health and wellness of the communities throughout the Monadnock Region through a combination of

outstanding care and exceptional service. The leading employer in the area, Cheshire, is a 169-bed facility employing 1,600 staff, of which 300 are providers who live and serve within our communities.

On our Keene campus, our team delivers an impressive range of clinical services that reflect the needs of the individuals and communities we serve. Being part of the Dartmouth Health family enables us to provide services that far exceed those of a typical rural hospital, including extensive programs in primary care, cancer care, cardiology, orthopedics, and public health. Our clinical practice is distinguished by an exceptional staff, a deep commitment to safety and quality, and a culture that values the contribution of every staff member and volunteer. In addition, we perform extensive, innovative outreach efforts focused on removing barriers to good health throughout the region. Our membership in the Dartmouth Health system also enables us to provide access to hundreds of highly trained specialists and a depth of clinical and technical resources that enhance our capacity to serve our neighbors and strengthen our daily pursuit of excellence.

Required Licensure/Certifications

- Current (or eligible) certification to practice as a Physician's Assistant in the state of New Hampshire. Academic preparation at the Master's level is required.
- CPR Certified.
- ACLS Certified (Can obtain within the first year of employment).

Dartmouth Health is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, veteran status, gender identity or expression, or any other characteristic protected by law.
