

THE TOP™

Premium Electroplated Diamond Topper Laps

- Stones pictured were cut and polished on Crystalite® products

The Top™ is a commercial-grade diamond topper lap, relied upon by cutting houses around the globe for consistent, contamination-free performance. Engineered with 100% diamond bonded to a hard electroplated nickel matrix, delivers precision and durability that professional lapidaries and serious hobbyists expect from Crystalite®.

BENEFITS:

- Out of the box ready - no dressing required.
- Specifically designed for even diamond distribution for consistent performance.
- Even cutting and efficiency allows for long tool life for commercial-grade results.

APPLICATIONS:

- Preforming, Cutting, Pre-polish
