MODULE	WR7.8
Pixel Pitch	7.81mm
LED Type	All-in-one chip 2020
Transparency	85%
Brightness	3,500nits
Refresh Rate	3,840Hz
Pixel Density	16,384 pixel/m ²
Module Size	500 x 250mm
Module Resolution	64 x 32pixels
Cabinet Size	1,000 x 1,000mm
Cabinet Resolution	128 x 128 pixels
Weight	10kg/m ²
Power Consumption Max./Avg.	640W/m ² / 230W/m ²
Viewing Angle	≥140°
Working Temperature	-20°C ~ 65°C
Working Humidity	10% ~ 90%RH

BUILT FOR BIG IMPACT

STADIUMS

High transparency keeps sightlines open while delivering powerful visual performance.

CONCERTS

Designed to perform in any outdoor environment, day or night.

BUILDING FACADES

Seamless integration with architecture for media walls and LED facades.

FESTIVALS

Weather-resistant and lightweight for fast deployment at any scale.

BROADCAST

High refresh rate for broadcast-quality video and live production.
