

How to Add the Applications Portlet

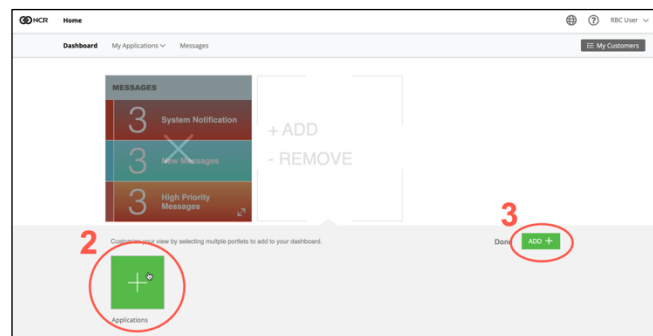

Adding the Applications Portlet to your Dashboard

Step 1: On your dashboard, click the Add/Remove portlet button.

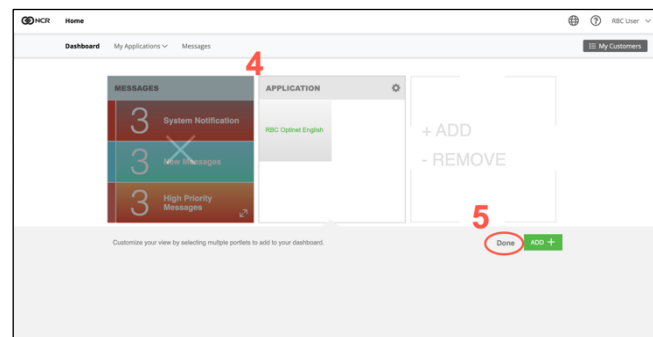

Step 2: In the Add/Remove portlet menu, click the Applications “+” button.

Step 3: Click the “Add +” button to add the Applications portlet to your dashboard.

Step 4: Confirm that you see the Applications portlet on your dashboard.

Step 5: Click the “Done” button in the Add/Remove portlet menu.

The Applications portlet will now be available on your dashboard.
