

34th Annual **INCOSE**
international symposium

hybrid event

Dublin, Ireland
July 2 - 6, 2024

Rae Lewark, Casey Medina & Allison Lyle

Designing for Resilience: Integrating Ecology into the Engineering Process

Resilience in Nature

Evolution

(Thorogood et al 2023)

The Adaptive Cycle

The Adaptive Cycle

(Seddin et al 2016)

The Biometric Approach

The Spiral

The Process

- **Integrate the biomimicry principles into the Engineering approach:**
 - **Define the Engineering Problem**
 - **Define the Operating Context**
 - **Query Nature:**
 - Identify trophic level/operating scale
 - Identify ecological candidates
 - Identify operating conditions
 - Identify behavior
 - Identify incentives and evolutionary pressures
 - Study the lifecycle
 - Study mechanics, physics, and chemistry
- **Integrate data into development process**

The Mantis Shrimp

The Mantis Shrimp
