- **Oppenheimer Life Sciences Private Company Showcase (Virtual)**
September 25, Management will host 1x1 meetings.

To request a meeting with the Tenpoint Therapeutics team, please contact the respective conference representatives or email the Company's investor relations team at tenpoint@lavoiehealthscience.com.

About Tenpoint Therapeutics

Tenpoint Therapeutics Ltd. is a global, commercial-ready biotechnology company developing groundbreaking treatments to rejuvenate vision in the aging eye. Its lead asset, BRIMOCHOL™ PF, is a novel pupil-modulating, investigational therapeutic designed to correct the loss of near vision associated with presbyopia, a condition that afflicts approximately two billion people globally. Tenpoint has completed two large Phase 3 pivotal trials (BRIO-I and BRIO-II) for BRIMOCHOL™ PF, has filed the NDA and has received a PDUFA date from the US FDA of Jan 28, 2026. Its pipeline includes paradigm-shifting treatments for ophthalmic indications with the greatest need and global market potential, including presbyopia, cataracts, and geographic atrophy.
