

Secure, enterprise-level device control. Zero installation hassle.

Xyte is the cloud platform to manage your entire device fleet at scale—any brand, any device, any location—through a single pane of glass. Now you can extend that same monitoring, management, and automation to legacy devices on local networks with **Xyte Secure Edge**, a secure, plug-and-play pre-installed appliance that brings local devices into the platform – **without the need to install, configure, or support your own server**.

Turnkey deployment. Device visibility in minutes.

Enterprise deployment at scale

- Ships fully configured with Xyte Connect Edge pre-installed
- Monitor and manage legacy devices alongside your cloud-connected devices from one interface
- Extend cloud visibility to devices on local networks
- Reduce onsite work and accelerate time-to-value
- No need for expertise in hardware support
- Supports 1,000 monitored devices per Secure Edge

Secure & reliable by design

- Local data processing reduces cloud dependency and exposure
- Hardened, always-on Edge appliance built for unattended operation

Bulk Pricing Available

- Special pricing is available for volume deployments. Contact Xyte to learn more.

Pre-configured hardware that securely connects legacy devices to the Xyte cloud.

- Customers without available server infrastructure
- Organizations that want Edge without IT overhead
- MSPs and integrators deploying Edge at scale
- Distributed environments where simplicity and speed matter

*TPM (Trusted Platform Module) 2.0 is a hardware-based security component built into the appliance that helps ensure the system is trusted, tamper-resistant, and secure from boot onward.

XYTE SECURE EDGE

Technical Specifications

Appliance Model

- Protectli Vault Pro
- **Model:** VP2410

Hardware

- **Processor:** Intel® Celeron® J4125 (64 Bit, 2.0 GHz Base, 2.7 GHz Burst, 4M Smart Cache)
- **Memory:** 1x SO-DIMM DDR4-2400, Max 16G
- **Onboard Storage:** 1x M.2 SATA, 1x 8G eMMC on board
- **Optional Additional Storage:** 1x Internal 2.5" SATA 3.0 SSD
- **Form Factor:** Fanless, aluminium, gray
- **Mounting Options:** Desktop, VESA Bracket, Optional 1RU Rack Mount

Networking

- 4x Intel® 1G Ethernet, RJ-45 (additional NIC options available)

Power

- Input 12V DC, 1x DC Power Jack
- **Power Usage:** Max 24W

External I/O

- 4x RJ-45 Ethernet ports
- 1x 12V DC Power Jack

Super I/O Chip

- IT8613E

A Platform You Can Trust

Built with enterprise grade security, Xyte Device Cloud offers enterprise CIOs and IT directors a fully scalable cloud architecture with a highly resilient infrastructure, SOC 2 Type 2 certification, and the highest levels of privacy. Learn more about Xyte's Security at Scale.
