

FREE PHONE TRIO · HOW TO USE

One layered Photoshop scene of three modern phones, fanned out, rendered in 3D. 3000 × 2250 px, 300 ppi, RGB, Photoshop CC 2020 or newer.

What's inside

- **KaeSandtDesign_Phone_Trio_Free.psd**: the scene, with 3 screen smart objects and the phone color, background color, glare and shadow on their own layers
 - **KaeSandtDesign_Free_Phone_Trio_License.pdf**: what you can and can't do with the file
-

Replace the 3 screens

1. Open the PSD and open the **PHONES** group.
2. Double-click the thumbnail of the **SCREEN 1** smart object. A 1206 × 2622 px document opens.
3. Paste or place your 1206 × 2622 px design over the placeholder, then **File** → **Save** (Cmd/Ctrl+S) and close. The phone updates.
4. Do the same for **SCREEN 2** and **SCREEN 3**.

Screen size: 1206 × 2622 px, portrait. Keep the top 190 px and bottom 100 px free of important content, the front camera cut-out and the home bar sit there. The dashed lines on the placeholder show both zones.

Colors and light

- **Phone color** (in the PHONE COLOR group): double-click its swatch and pick any color. Set it to white for a white phone.
 - **Background color**: double-click its swatch and pick any color. Hide it for a transparent background, the shadow stays on its own layer.
 - **Glare** is the reflection on the glass, and **Shadow** is the shadow on the ground. Lower their opacity or hide them.
-

The full version

This trio at full size, 6000 × 4500 px with the optional jelly case and one-click color presets, is in the **Three Phone Mockup Pack** (4 scenes): etsy.com/listing/4591989172

Every scene, one to six phones, is in the **Phone Mockup Bundle** (16 scenes): etsy.com/listing/4589457080

License

Free for personal and commercial projects, client work included, for you or your business and your own staff. Please don't resell, share or re-host the file, put it in another mockup or template pack, or use it to train AI. Credit isn't needed, and the full-size version with the jelly case is on Etsy. The full license is in **KaeSandtDesign_Free_Phone_Trio_License.pdf**.

No phone brand logos are included. Screen designs in the previews are samples and aren't part of the files.
