

YOUR TECH CAREER STARTS HERE

From Jobseeker to Tech Professional

Funded training. Real workplace experience.
A pathway into employment.

Ready for a fresh start?

The Tech Career Accelerator Programme (TCAP) has been created to help motivated jobseekers and career changers build the skills, confidence and experience needed to start a career in Ireland's growing technology sector.

Designed in partnership with leading technology employers, TCAP combines practical technical training with real workplace experience-giving you the opportunity to develop the skills employers are looking for. This is more than a training programme.

It's your opportunity to build a career in tech.

What's Included?

- ✓ **20 Days of Funded Technical Training:** Learn practical, industry-relevant skills through structured, instructor-led and self-paced learning.
- ✓ **20 Days of Real Workplace Experience:** Work alongside a real technology employer, with the opportunity for eligible participants to extend their placement for up to six months.
- ✓ **AI & Professional Skills:** Develop workplace-ready skills including communication, teamwork, time management and practical AI knowledge.
- ✓ **Industry-Focused Learning:** Every pathway has been designed around real employer requirements.

Is TCAP Right For You?

You could be a great fit if you:

- Are currently unemployed or considering a career change
- Have an interest in technology
- Are motivated to learn
- Want practical workplace experience
- Are ready to invest in your future

Why Choose TCAP?

Technology employers are looking for people with the right skills, the right attitude and practical workplace experience.

TCAP helps you build all three.

Apply Today

Places are limited.

If you're ready to take the next step towards a career in technology, we'd love to hear from you. See our webpage for application instructions.
