- Shore excursions conducted exclusively in English by licensed guides

Know Before You Book - High & Low Water

European river cruising has gained in popularity for very good reason. It's a relaxing and convenient way to experience Europe while enjoying the comfort of a deluxe ship. However, before making the decision to reserve your vacation, please be aware of potential conditions which may impact on your cruise. While most of the time river cruises operate exactly as planned, weather conditions may result in high or low water levels which impact on a ship's itinerary and, on occasion, render a ship unable to sail at all. On very rare occasions, other events such as heavy fog, a damaged lock, or an incapacitated vessel blocking the river, may impact sailing. These events typically occur with little or no notice. In the event that a cruise is partially or completely impacted, the itinerary will be operated by a deluxe motor coach, accompanied by a Tour Manager, with overnights in hotels. When the option exists, the operator will "swap ships" with another vessel sailing in the opposite direction, retaining the sailing experience. Crew, ship and cabin configuration may differ. The itinerary will include as many of the originally scheduled sightseeing features as possible, considering the travel time and distances required, as well as meals. While it is not possible to recreate the more leisurely comforts of sailing, we will endeavor to provide a comparable itinerary. These alternative services will be provided at no additional charge.
