

A9B-L COLD FORMING MACHINE

REDUCED TO THE MAX

COST EFFICIENT ➤ GROB-QUALITY

- The A9 basic is the straightforward answer to your spline forming mass production challenges

TECHNICAL FEATURES

- Continuous spline forming operation
- No. of splines freely programmable
- Max. spline module 3.5
- Spline diameter range 20 – 120 mm ➤ other ranges on request
- Spline length up to 150 mm ➤ extended length on request
- Workpiece length up to 1'100 mm
- Fanuc controller
- X-axis (workpiece diameter) manual adjustment
- A-axis (swiveling angle) manual adjustment
- Safety enclosure

EXTRAS ON REQUEST

- Robot interface
- Loading assistance device
- Automated machine door
