Organization

Formed as a collaboration between the YMCA of Greater Long Beach, Long Beach' Department of Health and Human Services, City Fabrick and a number of other community organizations, Walk Long Beach is dedicated to promoting and advocating for walking in the city.

City Fabrick facilitated dozens of walking workshops in communities throughout the city to teach residents how to observe their neighborhood critically for walk ability, with the intention of building advocacy for walking. Through these workshops City Fabrick designed a series of self-guided walking tours that encourage walking through these neighborhoods, highlighting interesting sites as identified by participants of the workshops.

In April 2016, Walk Long Beach became a standalone non-profit organization. Walk Long Beach expanded its programs and solidified its network of supporters and community outreach partners. Amongst their programs are the annual Rancho Walk which tours neighborhoods across Long Beach linking the historic Rancho Los Cerritos and Rancho Alamitos sites. City Fabrick continues to collaborate with Walk Long Beach, providing technical and creative capacity to the organization. For more information about Walk Long Beach, please visit walklongbeach.org
