LUMBER
LUMBERFI.COM

About Lumber

Lumber is an all-in-one construction workforce management platform that seamlessly streamlines payroll, time tracking, safety, compliance, field productivity, rewards, and recognition for building contractors.

Key Differentiation

Industry-Specific Focus

- Tailored specifically for construction companies
- Features designed to address industry-specific pain points

AI-Powered Automation

- AI-powered payroll engine reduces 20 hours of weekly work to 30 minutes
- Automates complex calculations for multi-state, multi-rate, prevailing wages, union rates, OT and more.

Built-in Compliance

- Ensures adherence to complex labor regulations across all 50 US states
- Supports certified payroll, union reporting, and checks for prevailing wages

Seamless Integration

- Integrated with Acumatica and many other popular applications

Comprehensive Features

- Mulitlingual support: English / Spanish
- Includes geo-fencing, biometrics, mobile signatures, and color-coded clock-in/out
- First-ever gamification experience: Earn badges and awards for safety, speed, quality and more.

Customer Success

- Dedicated customer success team with construction industry expertise.
- Personalized onboarding and training programs tailored to each client's needs.

Hear from our Customer

Partnering with LumberFi for payroll and Acumatica for ERP has been a game-changer for American Asphalt South. The seamless integration between these two platforms has streamlined our operations, improved accuracy, and saved us countless hours of manual work.

As a joint construction customer, I'm thrilled to see how their collaboration has empowered our team to focus on growth and delivering exceptional results for our clients. It's a partnership that truly works for us!

Robert W. Sylvester
Corporate Controller & Director of HR, American Asphalt South
