

Air Gateway Pairings:

Air Gateways are capacity-controlled, subject to availability, and can be withdrawn without notice.

- Pricing can change at any time, without notification. Pricing should be viewed and confirmed in the reservation system.

Note: Dynamic pricing was recently deployed for the air promotion, AIRPROM3. Dynamic air pricing entails that the air add-on amount may change depending on the market, air gateway origin or sail date.

- Certain air gateway-port pairings are not eligible for AIRPROM3. If Port/ Air Gateway pairing is not eligible for AIRPROM3 promotion, then catchall pricing will populate.
 - Example: Flying out of West Palm Beach to Miami International Airport for a cruise sailing out of Miami is not an eligible pairing.
