

PSA: 21BTC will be discontinued

We're ensuring a seamless transition for token holders. DeFi liquidity for 21BTC to USDC/JitoSOL and WBTC swaps and CeFi access on Crypto.com will remain available until October 15, 2025.

21BTC Product Discontinuation & Redemption FAQ

- **Why is 21BTC being discontinued?**

We appreciate the trust you have placed in 21BTC. As part of our strategic realignment, we've made the decision to shut down the 21BTC product and refocus on other opportunities. This shift allows us to concentrate our efforts and deliver greater value to our users through our upcoming product offering.

- **When will 21BTC be discontinued?**

21BTC product will be officially discontinued on August 01, 2025 and will no longer be minted.

- **What is the sunset timeline? (1/2)**

August 01, 2025:

- Official 21BTC discontinuation date - Product officially sunset
- Minting of new tokens ceases permanently

- **What is the sunset timeline? (2/2)**

October 15, 2025:

- Final day for holders to move or swap 21BTC from external wallets to Crypto.com
- Final day to swap liquidity on DeFi platforms:
