GENERAL INFORMATION: The Comptroller's office provides this worksheet to assist water districts in determining their voter-approval tax rate. The information provided in this worksheet is offered as technical assistance and not legal advice. Water districts should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Voter-Approval Tax Rate

The voter-approval tax rate for developed water districts is the current year's debt service, contract and unused increment tax rates plus the maintenance and operation (M&O) tax rate that would impose no more than 1.035 times the amount of M&O tax imposed by the water district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.

The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

If any part of the developed water district is located in an area declared a disaster area during the current tax year by the governor or by the president, the board of the district may calculate the voter-approval tax rate in the manner provided in Water Code Section 49.23601(a) and determine whether an election is required to approve the adopted tax rate in the manner provided in Water Code Section 49.23601(c). In such cases, the developed water district may use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* to calculate its voter-approval tax rate.

SECTION 2: Mandatory Tax Election Rate

The mandatory tax election rate is the highest total tax rate a developed water district may adopt without holding an election. The mandatory tax election rate is the rate that would impose 1.035 times the amount of tax imposed by the district in the preceding year on the average appraised value of a residence homestead in the water district plus the unused increment rate. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.⁷
