MYCO Medical is a leading global healthcare sourcing company with a passion and commitment to helping enhance the safety and efficacy of medical devices used by healthcare facilities across the United States.

With over 30 years in the industry, we take pride in supporting our nation's physicians and healthcare providers by reducing healthcare costs in the U.S. with high-quality, safe, and innovative medical device solutions. By working closely with customers, MYCO Medical strives to help enhance outcomes, lower costs, increase efficiencies, and improve safety for U.S. healthcare clinicians and patients.

MYCO Medical Blood Collection and Infusion Therapy products are appropriate for environments such as:

Blood Banks

Testing Facilities

Hospitals

Research Labs

Clinics

Reference Labs

Surgery Centers

General Practice Offices

COMPLIANCE

Protection for Staff & Patients

OSHA Standard on Bloodborne Pathogens

1910.1030 (c)(1)(iv)(A)

Reflect changes in technology that eliminate or reduce exposure to bloodborne pathogens.

1910.1030 (d)(2)(vii)(B)

Such bending, recapping or needle removal must be accomplished through the use of a mechanical device or a one-handed technique.

1910.1030 (d)(2)(xi)

All procedures involving blood or other potentially infectious materials shall be performed in such a manner as to minimize splashing, spraying, spattering, and generation of droplets of these substances.
